The National Drug Intelligence Center's (NDIC) mission is to provide strategic intelligence and assistance to the drug control, public health, and law enforcement and intelligence communities of the United States in order to reduce the adverse impact of drug trafficking, drug abuse, and other drug-related criminal activity. In addition, NDIC provides timely support to law enforcement authorities and the intelligence community by conducting document and computer exploitation of materials collected in Federal, State, and local law enforcement activity associated with investigations and operations.

NDIC is organized into two operating divisions: the Intelligence Division and the Intelligence Support Division. The Intelligence Division is comprised of three sections: Information Collection Section (ICS), Intelligence Analysis Section (IAS) and the Intelligence Operations Section (IOS). These sections provide timely strategic domestic drug intelligence assessments focusing on the production, consumption, and trafficking of illicit drugs, document and media exploitation support and developing, coordinating, and collecting data to satisfy Standing Intelligence Requirements (SIR) and project specific Priority Intelligence Requirements (PIR).

NDIC prepares strategic analytical studies on the trafficking of illegal drugs and on related illegal activities. NDIC also produces strategic money laundering reports that help implement anti-money laundering initiatives. NDIC reports address the methods wholesale-level traffickers use to launder drug proceeds. NDIC supports the National Money Laundering Threat Assessment and the National Money Laundering Strategy—interagency projects that enhance the nation's ability to counter international money laundering.

NDIC produces intelligence reports that provide timely, predictive analysis of the threat posed by illicit drugs in the United States. These products address needs at the national, state, local, and tribal levels. NDIC also produces Strategic Threat Assessments which are analytical studies of major drug threats impacting the United States and include the following:

—Geographic Assessments provide strategic overview of the illicit drug threats in the US or specific jurisdictions in relationship to regions within the Organized Crime Drug Enforcement Task Force region, High Intensity Drug Trafficking Area, state, city, border region, etc.

—Organizational Assessments are intelligence products that examine key organizational trafficking threats operating in the United States and their methods of operation.

—Current Intelligence Reports are quick turnaround reports on issues of immediate importance.

NDIC provides real-time support to the law enforcement and intelligence communities by conducting document and media exploitation of materials associated with investigations. NDIC has developed a methodology that allows analysts to quickly organize and assimilate important information in documents and electronic media seized during drug raids. By using this methodology and the Real-time Analytical Intelligence Database (RAID) and HashKeeper software, which were developed in-house, NDIC analysts can organize and assimilate significant amounts of evidence to reveal associations, assets, and methods of drug traffickers to assist criminal investigations and prosecutions. The information is also used to help NDIC analysts better understand the trafficking of drugs in the United States.

Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology. This centralized fund, under the control of the DOJ Chief Information Officer, will ensure that investments in information sharing technology are well-planned and aligned with the Department's overall information technology (IT) strategy and enterprise architecture, and that all DOJ components are able to operate in a technologically unified environment, particularly with respect to preventing terrorist attacks on the United States. The current major initiatives/projects are described below.

Joint Automated Booking System.—The Joint Automated Booking System (JABS) is a Department of Justice information sharing project that provides data to the FBI's Integrated Automated Fingerprint Identification System (IAFIS) through an automated process for the collection and transmission of fingerprint, photographic, and biographical data. The mission of JABS is to: (1) improve the booking process through automation; (2) enable agencies to share and exchange arrest information; and (3) maintain a federal offender tracking system.

Justice Consolidated Office Network (JCON) Office Automation.—JCON provides a reliable and robust common office automation platform for several Departmental components. The cornerstone of the project is the JCON Standard Architecture, which defines the IT computing framework, including networked workstations, servers, and printers; a common set of core applications (e-mail, word processing, etc.); and a basic set of system administration tools.

Litigation Case Management System.—This project will develop a common framework for the processes and systems that support litigation case management. The implementation of a common solution for litigation case management systems will provide for: (1) more accurate reporting on case loads and activity across the United States.; (2) operational efficiencies and greater information sharing; (3) long term cost savings by eliminating redundant systems and investments.

JCON S/TS Program.—The JCON Secret/Top Secret (S/TS) Program provides a seamless, Department-wide IT infrastructure for electronically sharing, processing, and storing classified information. JCON S/TS is a reliable, secure system which allows attorneys, intelligence analysts, law enforcement staff, and managers to exchange classified electronic data within and between components on a real-time basis.

Law Enforcement Information Sharing Program.—The Law Enforcement Information Sharing Program (LEISP) is a Department-wide strategy to facilitate the sharing of information about terrorism, criminal activity, and threats to public safety. LEISP will implement the information technology tools needed to facilitate timely, appropriate, and secure sharing of information across the law enforcement community.

Unified Financial Management System.—The Unified Financial Management System will allow the Department of Justice to streamline and standardize business processes and procedures across all components, providing secure, accurate, timely, and useful financial and procurement data to program managers, and to produce component and Department level financial statements.

Resources are requested to support the Department of Justice's law enforcement wireless communications program, including efforts to make more efficient use of radio spectrum as required by 47 U.S.C. 903(d)(1). Wireless communications efforts will address communications shortcomings in key strategic locations, such as along the northern and southern land borders, and in cities or regions that are potential targets for terrorism. Requested resources will be allocated to operations and maintenance requirements; investment in new, more efficient infrastructure and subscriber equipment; promotion of communications interoperability by Federal law enforcement and homeland security personnel; support of existing legacy land mobile radio systems; and management and operating requirements of the Wireless Program Management Office.

The Communications Assistance for Law Enforcement Act (CALEA) of 1994 authorized the Attorney General to reimburse telecommunications carriers for costs associated with modifying digital equipment installed before January 1, 1995, in order that court-authorized wiretaps may be performed.

The Omnibus Consolidated Appropriations Act of 1997 (P.L. 104-208) extended eligibility for reimbursement to telecommunications equipment manufacturers and providers of support services. In addition to direct appropriations to the Fund, Congress authorized Federal agencies with law enforcement and intelligence responsibilities to transfer to the Fund unobligated balances

that are available until expended, upon compliance with Congressional notification requirements.

With the appropriations provided in 2001, total funding for the program has reached \$500 million, the authorization level provided in the Act.

This program includes the Office of the Pardon Attorney (OPA) and the Executive Office for Immigration Review (EOIR). The Pardon Attorney receives and reviews all petitions for clemency, i.e., commutation of sentences and pardons. The Executive Office for Immigration Review contains 57 Immigration Courts and the Board of Immigration Appeals. EOIR was established January 1, 1983, to improve the immigration hearing and appeal process. Workload for activities follows:

The Office of the Federal Detention Trustee (OFDT) is mandated to direct detention programs and improve and coordinate detention activities for the Departments of Justice and Homeland Security. The Federal Detention Trustee (the Trustee) reports to the Deputy Attorney General on detention activities, policy, and forecasting of appropriations. The Trustee's primary responsibility is to ensure operational effectiveness and the efficient expenditure of appropriated funds so that the Federal agencies involved in detention provide for the safe, secure, and humane confinement of persons in the custody of the United States Marshals Service (USMS). The Trustee's role encompasses the care of Federal detainees in private, State, and local facilities, and includes housing, subsistence, transportation, medical care, and medical guard service. The Trustee also manages the Justice Prisoner and Alien Transportation System (JPATS) and strives to ensure equality among participating agencies while allowing unimpeded prisoner transportation operations.

DEPARTMENT OF JUSTICE

General Administration—Continued Federal Funds—Continued Federal Federal Funds—Continued Federal Funds—Continued Federal Funds—Continued Federal Federa

For 2010, the Trustee will continue to work with State and local governments and private service providers to maintain adequate detention capacity to house detained individuals charged with Federal offenses awaiting trial or sentencing. The Federal Government utilizes various methods to house detainees. For example, detention bed space for Federal detainees is acquired at the lowest cost to the Government through: (1) Federally-owned and managed detention facilities, where the Government has paid for construction and operation of the facility. This is mostly paid for in the Federal Bureau of Prisons' (BOP) Salaries and Expenses account: (2) Intergovernmental Agreements (IGAs) with State and local jurisdictions, whose excess prison and jail bed capacity is utilized and paid via a daily rate; and, (3) Private performance-based contract facilities, where a daily rate is paid. Based on anticipated growth rates in the Federal detention population, over three-quarters of the USMS's federally detained population will likely be housed in State, local and private facilities.

In an effort to reduce detention costs, the Trustee has implemented efficiencies such as the e-Designate program which automates the sentencing-to-commitment process and accelerates the movement of prisoners from detention to Bureau of Prisons (BOP) facilities. The Trustee's office also facilitated the establishment of Regional Transfer Centers and Ground Transfer Centers to further reduce the time from sentencing to incarceration by accelerating the movement of prisoners to a designated BOP facility and by increasing alternatives to detention programs.

As a key strategy to expand the President's e-government initiative, OFDT has also developed DSNetwork, a multifaceted, fullservice Internet site designed to meet various detention services needs. DSNetwork is a consolidated detention services site which allows for automated processing of IGAs (eIGA), provides a facility locator and a Detention Services Schedule, posts detention facility review information, allows agencies to maintain an automated multi-year acquisition plan for long-range planning, and collects and maintains procurement data for agencies to use to assess bed space availability. DSNetwork reduces lengthy and cumbersome workload by transitioning from paper-based processing toward automation and is significantly improving interaction between government agencies and service providers. This webbased, Internet accessible tool provides timely, accurate, and comprehensive detention information on a secure, centralized site (https://www.ofdt.net).

Additionally, OFDT developed a Quality Assurance Program (QAP) based on Federal Performance-Based Detention Standards (FPBDS). The elements of the QAP include: Quality Assurance Reviews (QAR) — annual reviews of contracted private detention facilities and identified state and local IGA detention facilities — which produce corrective action plans for any noted deficiencies; a Facility Review Management System, which automates the QAR process; and, a Contract Monitoring Instrument (CMI), which is an automated tool that government representatives can use to monitor the performance of a facility on a more frequent basis, thus ensuring a consistent approach to monitoring non-Federal detention bed space. The QAP data is collected and provided through the DSNetwork to detention agencies and facility providers with the underlying goal of improving the safety, security and treatment of federal detainees.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. Also by statute, the OIG reports to the Attorney General, Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decisionmakers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and Congress and of vital importance to the Department.

The Executive Direction and Control function provides program direction for the OIG. Responsibilities include policy development, legal counsel, congressional affairs, planning, budget, finance, personnel, procurement, automated data processing, and general support services.

The United States Parole Commission makes decisions to grant or deny parole to Federal and D.C. prisoners serving sentences of one year and a day or more, sets conditions of parole, supervises parolees and mandatory releasees, recommits parolees in the event of violations of the conditions of supervision, and determines the termination of supervision in accordance with the Parole Commission and Reorganization Act of 1976.

In addition, the Commission seeks to improve the rehabilitation process by monitoring an effective parole supervision program through U.S. and District of Columbia probation officers and through research studies that evaluate the effectiveness of parole programs. The U.S. Parole Commission has responsibility for parole and parole revocation hearings, and supervision of District of Columbia parolees, and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105-33).

The Federal Government is represented in each of the 94 judicial districts and the District of Columbia Superior Court by a U.S. Marshal. The primary missions of the U.S. Marshals Service (USMS) are protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community.

For 2010, \$134.3 million in program increases are requested for immigration enforcement.

Reimbursable program.—Federal funds in 2010 are derived from the Administrative Office of the U.S. Courts for the court security program, the Office of the Federal Detention Trustee for the housing and transportation of USMS prisoners in non-Federal facilities, the Assets Forfeiture Fund for seized assets management, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, and the Office of National Drug Control Policy and the Centers for Disease Control for security services. Non-Federal funds are derived from State and local governments for witness protection and the transportation of prisoners pursuant to State writs, as well as fees collected from service of civil process and sales associated with judicial orders.

This appropriation is used to pay fees and expenses to witnesses who appear on behalf of the government in litigation in which the United States is a party. The United States Attorneys, the United States Marshals, and the Department's six litigating divisions are served by this appropriation.

Fees and expenses of witnesses.—Pays the fees and expenses associated with the presentation of testimony on behalf of the United States for fact witnesses, who testify as to events or facts about which they have personal knowledge, and for expert witnesses, who provide technical or scientific testimony. This program also pays the fees of physicians and psychiatrists who examine accused persons upon order of the court to determine their mental competency.

Protection of witnesses.—Pays subsistence and other costs to ensure the safety of government witnesses whose testimony on behalf of the United States places them or their families in jeopardy.

*Victim compensation fund.*—Pays restitution to any victim of a crime committed by a protected witness who causes or threatens death or serious bodily injury.

Private counsel.—Pays private counsel retained to represent government employees who are sued, charged, or subpoenaed for actions taken while performing their official duties (private counsel expenditures may be authorized for congressional testimony as well as for litigation in instances where government counsel is precluded from representing the employee or private counsel is otherwise appropriate).

Foreign Counsel.—Allows the Civil Division who is authorized to oversee litigation in foreign courts to provide foreign counsel, retained and supervised by the Department of Justice, to pay the legal expenses of representing the United States in cases filed in foreign courts.

Alternative Dispute Resolution.—Pays the costs of providing Alternative Dispute Resolution (ADR) services in instances wherein the Department has taken the initiative to use such services and in those matters wherein the courts have directed the parties to attempt a settlement using mediation or some other ADR process.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund, into which forfeited cash and the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the assets forfeiture program are paid from the permanent, indefinite portion of the fund. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Justice Prisoner and Alien Transportation System (JPATS) is responsible for transporting by air all Federal prisoners and detainees, including sentenced and pretrial, whether in the custody of the U.S. Marshals Service or the Bureau of Prisons. JPATS also transports prisoners in the custody of the Department of Defense, Department of Homeland Security, and State and local law enforcement. JPATS transports prisoners and detainees on a full cost recovery reimbursable basis with participating Executive Departments and agencies without sacrificing the safety of the public, Federal employees, or those in custody. Proceeds from the disposal of aircraft will be deposited into the Fund. The Office of the Federal Detention Trustee (OFDT) is responsible for process improvement, fiscal and management oversight and the development and implementation of a long range strategic plan for JPATS.

The Organized Crime Drug Enforcement Task Force (OCDETF) Program consists of a nationwide structure of nine regional task forces that combine the resources and expertise of its seven member Federal law enforcement agencies, in cooperation with State and local investigators and with prosecutors from the U.S. Attorneys Offices and the Criminal and Tax Divisions, to target and destroy major narcotic-trafficking and money-laundering organizations. The task forces perform the following activities:

Investigation.—This activity includes the resources for direct investigative, intelligence and support activities of the task forces, focusing on the disruption and dismantlement of drug trafficking and money laundering organizations by various organized crime enterprises. Organizations participating under the Investigations function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, and U.S. Immigration and Customs Enforcement.

Prosecution.—This activity includes the resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are intended to dismantle drug trafficking and money laundering organizations in their entirety, most notably the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, and the Department of Justice's Criminal Division and Tax Division.

At the request of the Attorney General, the OCDETF member agencies, with input from the intelligence community, developed the Consolidated Priority Organization Target (CPOT) List, which identifies those significant international drug trafficking and money laundering organizations most responsible for the illegal drug supply to the United States. In FY 2008, the CPOT list included 54 international targets. As of January 15, 2009, OCDETF had identified 663 OCDETF investigations that are targeting components of CPOT-listed organizations. The CPOT strategy seeks to incapacitate the foreign-based organization heads, their

Interagency Crime and Drug Enforcement—Continued domestic transportation and smuggling systems, their regional and local distribution networks, and their financial operations, thereby interrupting the flow of drugs into the United States and diminishing the capacity of the CPOT organizations to reconstitute themselves. The strategy aims to ensure that OCDETF funding is being used as effectively and efficiently as possible. In addition to CPOTs, OCDETF also prioritizes cases linked to Regional Priority Organization Targets (RPOTs), whose drug activities have a significant impact on the particular drug threats facing one or more of the nine OCDETF regions. OCDETF's commitment to pursuing priority targets is evident from the steady increase in the percentage of cases linked to these targets. During 2008, 15 percent of OCDETF's active investigations were linked to a CPOT, while 20 percent were linked to RPOTs.

In 2008, OCDETF initiated 1,064 new cases, a nearly 5 percent increase over the number initiated in 2007. OCDETF district and regional coordination groups are working to ensure that only those investigations that meet the standards established for OCDETF cases are approved and the quality of these new investigations clearly reflects OCDETF's commitment to pursue the most significant drug trafficking and money laundering organizations.

The mission of the FBI is to protect the United States from terrorist and foreign intelligence activities; to uphold the law through the investigation of violations of Federal criminal law; to provide leadership and assistance to Federal, State, local, and international law enforcement agencies; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

Protecting America in the current challenging national security and criminal environment requires that the FBI refocus its priorities; realign its workforce to address these priorities; and improve management policies and operating procedures to enhance flexibility, agility, effectiveness, and accountability. The FBI's revised strategic priorities are, in order:

—Protect the United States from terrorist attack,

DEPARTMENT OF JUSTICE Federal Bureau of Investigation—Continued Federal Funds—Continued Federal Funds—Federal Fund

- —Protect the United States against foreign intelligence operations and espionage,
- —Protect the United States against cyber-based attacks and high technology crimes,
  - -Combat public corruption at all levels of government,
- -Protect civil rights,
- —Combat transnational and national criminal organizations and enterprises,
- -Combat major white-collar crime,
- —Combat significant violent crime,
- —Support federal, state, county, municipal, and international partners,  $\,$
- —Upgrade technology to successfully perform the FBI's mission.

FBI investigations and operations are conducted through a network of 56 major field offices, over 400 smaller field offices (resident agencies), and four information technology centers located throughout the United States; the FBI Academy and engineering complex at Quantico, Virginia; a fingerprint identification and criminal justice information services center in Clarksburg, West Virginia; over 50 foreign liaison posts; and FBI Headquarters in Washington, D.C.

A number of FBI activities are carried out on a reimbursable basis. For example, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs and by other Federal agencies for certain investigative services, such as pre-employment background inquiries and fingerprint and name checks. The FBI also is authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2010 the FBI proposes 372 million in program enhancements and \$101 million to support overseas contingency operations. These enhancements support national security, intelligence, information technology, information sharing, and infrastructure needs. Highlights of these initiatives include: (1) enhanced national security and intelligence capabilities, to include training; (2) enhanced surveillance capabilities; (3) enhanced information sharing capabilities; and (4) improved information technology.

The Drug Enforcement Administrations (DEA's) mission is to enforce the controlled substances laws and regulations of the United States. DEA's major focus is the disruption and dismantlement of Priority Target Organizations (PTOs)—domestic and international drug trafficking and money laundering organizations having a significant impact upon drug availability in America. DEA emphasizes PTOs with links to organizations on the Attorney General's Consolidated Priority Organization Target (CPOT) list, which represents the "Most Wanted" drug supply and money laundering organizations believed to be primarily responsible for the United States' illicit drug supply. DEA places

a high priority on targeting the financial infrastructure of major drug trafficking organizations and members of the financial community who facilitate the laundering of their proceeds. From FY 2005 to FY 2008 DEA denied to drug traffickers more than \$9 billion in revenue. In addition to keeping drugs and drug-related violence out of the United States, DEA plays a vital role in the areas of national security, border security, and immigration.

The resources requested in FY 2010 will allow DEA to build upon its recent accomplishments. According to DEA's analysis of cocaine seizures, DEA's efforts have had a significant impact on the domestic drug market. From January 2007 to December 2008, the price per pure gram of cocaine has increased 104 percent while purity decreased 35 percent. Factors contributing to these favorable results include DEA's Drug Flow Attack Strategy; DEA-led operations such as Operation All Inclusive; Mexicos increased pressure on traffickers; extraditions from Mexico and Colombia; DEA coalitions with host nation counterparts; and the denial of drug trafficking revenue.

DEA's activities are divided into three main decision units:

Domestic Enforcement—Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This activity contains most of DEA's resources, including domestic enforcement groups, state and local task forces, other federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. Strategic objectives have been established as follows:

- —Identify and target the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;
- —Systematically disrupt or dismantle targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,
- —Work with international offices to dismantle domestic organizations directly affiliated with international cartels.

International Enforcement—DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution sectors of major international drug trafficking organizations. Strategic objectives include:

- —Identify, prioritize, and target the most significant international drug and chemical trafficking organizations;
- —Disrupt and dismantle the networks, financial infrastructures, operations, and the resource bases of targeted international drug and chemical trafficking organizations; and,
- —Prevent drug trafficking organizations from funding terrorist organizations and activities.

State and Local Assistance—DEA responds to clandestine laboratory training requirements, hazardous waste cleanup, and cannabis eradication/suppression needs of the U.S. law enforcement community. DEA supports State and local law enforcement with methamphetamine-related assistance and training, which allows State and local agencies to better address the methamphetamine threat in their communities and reduce the impact that methamphetamine has on the quality of life for Americas citizens. By teaching and assisting others in the techniques of clandestine laboratory drug enforcement, hazardous waste cleanup, and cannabis eradication/suppression, DEA is able to expand drug enforcement across the United States in a very cost-effective manner. The strategic objectives are to:

- —Provide clandestine methamphetamine laboratory training to state and local law enforcement officers;
- —Assist state and local law enforcement with efforts to clean up hazardous waste from clandestine methamphetamine laboratories; and,
- —Assist local efforts to control the production of cannabis.

DEA also receives funding through reimbursable agreements. The primary reimbursements to DEA are for the Interagency Crime and Drug Enforcement Task Force program and the Department of Justice Assets Forfeiture Fund.

For FY 2010, \$24,075,000 is requested to expand and reinforce DEA operations on the Southwest Border and its ability to disrupt and dismantle violent Mexican drug cartels. The Southwest Border enhancement includes an increased border presence to interrupt the flow of drugs to Mexican drug rings operating within the U.S., as well as additional positions across the nation to support DEA's Southwest Border investigations. Southwest Border investigations frequently involve drug trafficking organizations operating in U.S. cities far from the border. The enhancement will also support Special Field Intelligence Programs that focus on Mexican drug trafficking organizations operating in the U.S. and Mexico.

For FY 2010, \$10 million is requested to continue initiatives funded in the FY 2008 Supplemental Appropriations Act (PL 110-252). This includes DEA's narco-terrorism initiative coordinated by the Special Operations Division, financial investigations, and the operation and maintenance of the helicopter provided for the Western Hemisphere Foreign-deployed Advisory and Support Teams (FAST).

DEA's general long-term goal supports the Department of Justice's efforts to reduce illegal drug availability. DEA accomplishes its general long-term goal by disrupting or dismantling identified PTOs. The measures below reflect DEA's focus on PTOs and those PTOs linked to organizations on the Attorney General's CPOT list.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. By carrying out the mandates of the Controlled Substances Act (CSA), DEA ensures that adequate supplies of controlled drugs are available to meet legitimate medical, scientific, industrial, and export needs, while preventing, detecting, and eliminating diversion of these substances to illicit traffic. The CSA requires physicians, pharmacists, and chemical companies to register with the DEA in order to distribute or manufacture controlled substances or listed chemicals. Investigations conducted by DEA's Diversion Control Program fall into two distinct categories: the diversion of legitimately manufactured pharmaceutical controlled substances and the diversion of controlled chemicals (List I and II) used in the illicit manufacture of controlled substances. Strategic objectives include:

—Identify and targeting those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cyber crime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;

—Support the registrant population with improved technology, including e-commerce and customer support, while maintaining cooperation, support and assistance from the regulated industry;

—Educate the public on the dangers of prescription drug abuse and taking proactive enforcement measures to combat emerging drug trends; and,

—Ensure an adequate and uninterrupted supply of pharmaceutical controlled substances and listed chemicals to meet legitimate medical, commercial, and scientific needs.

For FY 2010, DEA is requesting \$2,706,000 for 11 additional chemists to support the Diversion Control Program. These additional 11 chemists will be placed throughout the DEA Laboratory system. Between FY 2006 and FY 2007, DEA added 161 Special Agents to the Diversion Control program. Additional chemists are required to analyze the exhibits submitted by these Special Agents during diversion investigations.

ATF is the U.S. law enforcement agency dedicated to protecting our Nation from the illicit use of firearms and explosives in violent crime and acts of terrorism. ATF protects our communities from violent criminals and criminal organizations by investigating and preventing the illegal use and trafficking of firearms, the illegal use and improper storage of explosives, acts of arson and bombings, and the illegal diversion of alcohol and tobacco products. ATF regulates the firearms and explosives industries

from manufacture and/or importation through retail sale to ensure that Federal Firearms Licensees (FFLs) and Federal Explosives Licensees (FELs) and permitees conduct business in compliance with all applicable laws and regulations.

For FY 2010, \$17,989,000 is provided to support the Southwest Border Project Gunrunner, and \$19,000,000 is provided for operations and infrastructure for the National Center for Explosives Training and Research (NCETR).

# SALARIES AND EXPENSES—Continued Summary of Budget Authority and Outlays —Continued

	2008 actual	2009 est.	2010 est.
Budget Authority	5,287	5,601	5,980
Outlays	5,258	5,566	5,951

This appropriation will provide for the custody and care of an average daily population of 208,414 offenders and for the maintenance and operation of 115 penal institutions, 6 regional offices, and a central office located in Washington, D.C. The appropriation also finances the incarceration of sentenced Federal prisoners in State and local jails and other facilities for short periods of time. An average daily population of 37,255 sentenced prisoners will be in contract facilities in 2010.

The Federal Prison System (FPS) receives reimbursements for the daily care and maintenance of State and local offenders, for utilities used by Federal Prison Industries, Inc., for staff housing, and for meals purchased by FPS staff at institutions.

Inmate Care and Programs.—This activity covers the costs of all food, medical supplies, clothing, welfare services, release clothing, transportation, gratuities, staff salaries (including salaries of Health Resources and Services Administration commissioned officers), and operational costs of functions directly related to providing inmate care. This decision unit also finances the costs of education and vocational training, drug treatment, religious programs, psychological services, and other inmate programs such as Life Connections.

Institution Security and Administration.—This activity covers costs associated with the maintenance of facilities and institution security. This activity finances institution maintenance, motor pool operations, powerhouse operations, institution security and other administrative functions.

Contract Confinement.—This activity provides for the confinement of sentenced Federal offenders in Government owned, contractor-operated facilities and State, local, and private contract facilities, and for the care of Federal prisoners in contract community residential centers and assistance by the National Institute of Corrections to State and local corrections. This activity also covers costs associated with management and oversight of contract confinement functions.

Management and Administration.—This activity covers all costs associated with general administration and provides funding for the central office, six regional offices, and staff training centers. Included are oversight functions of the executive staff and regional and central office program managers in the areas of: budget development and execution; financial management; procurement and property management; human resource management; inmate systems management; safety; legal counsel; research and evaluation; and systems support.

For 2010, the BOP is requesting an enhancement to further implement an Inmate Skills Development Initiative to unify inmate programs and services into a comprehensive reentry strategy. The process includes an assessment of an inmate's strengths and skill deficits upon admission, the development of an individualized plan to address skill deficits, and the monitoring of skill enhancements throughout incarceration. This requirement is part of the Second Chance Act. Also in 2010, the BOP budget includes \$102,120,000 for the activation of FCI McDowell in West Virginia and FCI Mendota in California.

Federal Prison Industries, Inc. (FPI), was created by Congress in 1934 and is a wholly-owned Government corporation. Its mis750 Federal Prison System—Continued THE BUDGET FOR FISCAL YEAR 2010

Federal Prison Industries, Incorporated—Continued sion is to employ and train Federal inmates through a diversified program providing products and services to other Federal agencies. These operations are conducted in such a manner as to maximize meaningful inmate employment opportunities and minimize the effects of competition on private industry and labor. Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

FPI strives to provide additional industrial employment opportunities at existing and planned institutions.

Budget program.—Federal Prison Industries, Inc., operations are entirely self-sustaining, and no appropriations are required for its operations. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

Financing program.—Revenues are derived entirely from the sale of products and services to other Federal agencies. Operating expenses are applied against these revenues, resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements and cash reserves are used to pay accident compensation.

Operating results.—To date, Federal Prison Industries, Inc., has returned to the Treasury a total of \$82 million of retained income in excess of the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The Office of Justice Programs (OJP) is requesting \$225 million in FY 2010 for the Justice Assistance appropriation. This appropriation includes programs that provide grants, contracts, and cooperative agreements for research, development and evaluation; development and dissemination of quality statistical and scientific information; victim services for children; and nationwide support for law enforcement agencies.

Through leadership, funding, and technical support, OJP plays a significant role in the research and evaluation of new technologies to assist law enforcement, corrections personnel, and courts in protecting the public, and guides the development of new techniques and technologies in the areas of crime prevention, forensic science, and violence and victimization research. The research and statistical data compiled by OJP staff are used at all levels of government to guide decision making and planning efforts related to law enforcement, courts, corrections, and other criminal justice issues. Grants, technical assistance, and national leadership provided by OJP supported the establishment of the Regional Information Sharing System, which has emerged as one of the Nation's most important law enforcement intelligence sharing networks. OJP continues to support efforts to expand and improve information sharing among the Nation's federal, state, local, and tribal law enforcement and criminal justice agencies.

### JUSTICE ASSISTANCE—Continued

Research, Evaluation, and Demonstration Program. The National Institute of Justice (NIJ) serves as the research and development agency of the Department of Justice, as authorized by 42 U.S.C. 3721-3723. The mission of NIJ is to advance scientific research, development, and evaluation to enhance the administration of justice and public safety by providing objective, independent, evidence-based knowledge, and tools to meet the challenges of crime and justice, particularly at the state and local levels. NIJ research, development, and evaluation (RD&E) efforts support practitioners and policy makers at all levels of government.

NIJ focuses its resources in program areas where federal assistance will generate the greatest benefit in order to successfully address the wide range of mandates assigned to it by Congress. During strategic and budgetary planning, NIJ emphasizes RD&E activities in the following major program areas: (1) State and Local Law Enforcement; (2) Forensic Science; (3) Crime Prevention; (4) Violence and Victimization; and (5) Corrections and Courts.

RD&E efforts funded by NIJ concentrate on practical and effective approaches to improving crime and delinquency prevention, crime control, and the administration of justice. NIJ research funding supports the development of new standards, and tools for criminal justice practitioners; testing of innovative concepts, equipment, and program models in the field; development of new knowledge through research on crime, justice systems, violence and victimization issues; and evaluation of existing programs and responses to crime. Information generated by NIJ research activities is actively disseminated to numerous targeted audiences across the United States, including policymakers, program partners, and Federal, state, local, and tribal justice agencies.

In FY 2010, in addition to continuing its important work in forensic sciences (including DNA) in support of effective crime investigation and prosecution, NIJ plans to make research investments aligned with administration priorities, including: Preventing youth violence through research, development, testing, and evaluation; Combating illicit drugs and crime; Improving the justice system, including problem-solving courts; crime prevention; Maintaining effective support programs for ex-offenders through community corrections and prisoner reentry; Addressing electronic crime; Addressing crime and security at Americas borders; Preventing delinquency and building effective justice processes for youthful offenders; and Improving law enforcement, including effective information-sharing technologies and strategies. The FY 2010 Budget proposes \$48,000,000 for this program.

Criminal Justice Statistics Program. The Bureau of Justice Statistics (BJS) serves as the primary statistical arm of the Department of Justice, as authorized by 42 U.S.C. 3721-3735, and assists state, local, and tribal governments in collecting and analyzing justice statistics. It disseminates quality information and statistics to inform policy makers, researchers, criminal justice practitioners, and the general public. The Criminal Justice Statistics Program collects, analyzes and publishes data on a wide range of criminal justice topics, including: (1) Victimization; (2) Law Enforcement; (3) Prosecution; (4) Courts and Sentencing; (5) Corrections; (6) Tribal Justice; (7) Justice Expenditure and Employment; (8) International justice systems; and (9) Drugs, alcohol, and crime.

In addition to research activities, BJS administers the State Justice Statistics Program for the Statistical Analysis Centers (SACs). SACs have been established in all states and most territories to centralize and integrate criminal justice statistical functions. Through financial and technical assistance to the state

SACs, BJS promotes efforts to coordinate statistical activities within the states and conducts the research as needed to estimate the impact of legislative and policy changes. The SACs also serve in a liaison role, assisting BJS with data gathering from respondent agencies within their states.

Further, the Criminal Justice Statistics Program will expand upon its base of research in FY 2010 with research in a number of areas including: Victimization via the redesign the National Criminal Victimization Survey (NCVS), which is the sole continuous source of national information for the many topics of concern to the Administration and Congress; Law Enforcement; Adjudication and Sentencing; Corrections; Recidivism and Reentry; and Studying American Indians in the criminal justice system. The FY 2010 Budget proposes \$60,000,000 for the Criminal Justice Statistics program, of which \$15,000,000 is requested for NCVS redesign work.

Victim Notification System. The Statewide Automated Victim Information Notification Program, administered by the Bureau of Justice Assistance (BJA), provides funds to implement statewide automatic victim notification programs, which provide victims of domestic violence and other violent crimes access to information about the custody status of offenders. This program is authorized by 42 U.S.C. 10601. The FY 2010 Budget proposes \$12,000,000 for this program.

Regional Information Sharing System (RISS). This program, authorized by 42 USC 3796h(d) and administered by the Bureau of Justice Assistance (BJA), is the only national criminal intelligence system operated by and for state and local law enforcement agencies. Six regional intelligence centers operate in mutually exclusive geographic regions that include all 50 states, the District of Columbia, and U.S. territories, with some member agencies in Canada, Australia, and England. These regional centers facilitate information sharing to support member agency investigative and prosecution efforts by providing state-of-the-art investigative support and training, analytical services, specialized equipment, and secure information-sharing technology. The centers also provide secure encrypted e-mail and communications capabilities to over 6,000 municipal, state, county, and federal law enforcement agencies nationwide.

RISS initially supported state and local law enforcement. However, the regional information sharing concept has expanded from efforts in combating drug trafficking and organized criminal activity to intelligence sharing across jurisdictional boundaries. Section 701 of the USA PATRIOT Act authorized RISS to operate secure information sharing systems to enhance the investigative and prosecutorial abilities of participating law enforcement agencies in addressing terrorism. The FY 2010 Budget proposes \$45,000,000 for this program.

Missing and Exploited Children Program. This program, authorized by the Missing Childrens Assistance Act of 1984 (42 USC 5771 as amended) and administered by the Office of Juvenile Justice Delinquency (OJJDP), supports the efforts to prevent the abduction and exploitation of children. The FY 2010 Budget proposes \$60,000,000 for this program, including funding for the Internet Crimes Against Children and AMBER Alert Programs.

The Office of Justice Programs (OJP) is requesting \$728 million for the State and Local Law Enforcement Assistance appropriation. This appropriation account includes programs that establish and build on partnerships with state, local, and tribal governments, and faith-based and community organizations. These programs provide federal leadership on high-priority criminal justice concerns such as violent crime, criminal gang activity, illegal drugs, information sharing, and related justice system issues. OJP's formula and discretionary grant programs, coupled with training and technical assistance activities, assist law enforcement agencies, courts, local community partners, and other components of the criminal justice system in preventing and addressing violent crime, protecting the public, and ensuring that offenders are held accountable for their actions.

For FY 2010, funding requested for this account will support the following initiatives:

Byrne Justice Assistance Grants (JAG). The Byrne Justice Assistance Grants program awards grants to state and local governments to support a broad range of activities to prevent and control crime based on local needs and conditions, including: law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment programs; and planning, evaluation, and technology improvement programs. The FY 2010 Budget proposes \$519,000,000 for this program.

Byrne Competitive Grants. The Byrne Competitive Grants program awards grants to state, local, and tribal government agencies, for-profit and non-profit organizations, and faith-based and community organizations to improve the functioning of the criminal justice system and assist victims of crime. The FY 2010 Budget proposes \$30,000,000 for this program, including \$10,000,000 for SMART Office activities.

Southwest Border Prosecutor Initiative. This initiative provides funding for local prosecutor offices in the four border states, including California, Texas, Arizona, and New Mexico. It provides payments to support approved prosecution and pre-trial detention costs for cases formally referred to local prosecutors by the U.S. Attorneys Offices and cases diverted from federal prosecution by law enforcement pursuant to a locally negotiated agreement. The FY 2010 Budget proposes \$30,000,000 for this program.

Victims of Trafficking. The primary goal of the Victims of Trafficking program is to empower local law enforcement to better identify and rescue trafficking victims. An important secondary goal is the interdiction of trafficking in its various forms, whether it is forced prostitution, indentured servitude, peonage, or other forms of forced labor. The FY 2010 Budget proposes \$10,000,000 for this program.

Residential Substance Abuse Treatment (RSAT). The Residential Substance Abuse Treatment program for state prisoners helps states and units of local government develop, implement, and improve residential substance abuse treatment programs in correctional facilities, and establish and maintain community-based aftercare services for probationers and parolees. Ultimately, the program's goal is to help offenders become drug-free and learn the skills needed to sustain themselves upon return to the community. The FY 2010 Budget proposes \$30,000,000 for this program.

Drug, Mental Health, and Problem Solving Courts. This initiative will assist state, local, and tribal governments in developing and implementing problem solving courts strategies that can serve as successful alternatives to the prosecution and incarceration of offenders with drug, mental health, and special needs. The initiative will provide grants, training, and technical assistance to help state, local, and tribal grantees develop and implement drug, mental health, and other problem solving courts. The FY 2010 Budget proposes \$59,000,000 for this program.

Prescription Drug Monitoring Program. The purpose of the Harold Rogers Prescription Drug Monitoring Program (PDMP) is to enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data. The FY 2010 Budget proposes \$7,000,000 for this program.

Prison Rape Prevention and Prosecution Program. This program oversees a comprehensive statistical review and analysis of the incidence and effects of prison rape. It supports the development of a national set of measures describing the circumstances surrounding incidents of sexual assault in correctional institutions. The data collections provide facility-level estimates of sexual assault for a 12-month period. The FY 2010 Budget proposes \$12,500,000 for this program.

Capital Litigation Improvement Program. The Capital Litigation Improvement Program provides grants for the training of defense counsel, state and local prosecutors, and state trial judges, with the goal of improving the quality of representation and the reliability of verdicts in state capital cases. The training focuses on investigation techniques; pretrial and trial procedures, including the use of expert testimony and forensic science evidence; advocacy in capital cases; and capital case sentencing-phase procedures. The FY 2010 Budget proposes \$5,500,000 for this program.

Indian Country Assistance Initiatives. The initiatives supported include the Indian Country Prison Grants Program, the Tribal Courts Assistance Program, and the Indian Alcohol and Substance Abuse Program. The FY 2010 Budget proposes \$25,000,000 for these initiatives.

The Office of Justice Programs (OJP) is requesting \$25 million for the Weed and Seed Program Fund appropriation. This appropriation account is administered by the Community Capacity Development Office (CCDO), which coordinates OJP efforts to build the capacity of America's communities to prevent and address crime and violence. The Weed and Seed Program is the centerpiece of CCDO efforts, promoting a unique strategy combining law enforcement efforts targeting violent crime, criminal gang activity, and drug and gun trafficking with crime prevention and community development strategies aimed at strengthening communities and helping them prevent the return of the criminal activity.

The FY 2010 Budget requests \$761 million for the Office of Community Oriented Policing Services (COPS) Appropriations account, which supports programs administered by COPS and the Office of Justice Programs (OJP).

COPS grant programs assist law enforcement agencies to improve public safety through the implementation of community policing strategies in jurisdictions of all sizes across the country. Community policing represents a shift from more traditional law enforcement and focuses on proactive collaborative efforts and the use of problem-solving techniques to prevent and respond to crime, social disorder, and fear of crime.

COPS provides funding to state, local, and tribal law enforcement agencies and other public and private entities to hire and train community policing professionals, acquire and deploy cutting-edge crime-fighting technologies, and develop and test innovative policing strategies.

The FY 2010 Budget includes \$415 million for programs to be administered by COPS, including these initiatives:

Hiring Grants. The hiring grants initiative provides funding to state, local and tribal law enforcement agencies to hire additional sworn law enforcement officers deployed in community policing activities. The initiative will continue to support the Administration's goal of hiring 50,000 law enforcement officers nationwide. The FY 2010 Budget proposes \$298,000,000 for this program.

Police Integrity. This program funds innovative community policing strategies that enhance trust between the police and their communities. By strengthening trust, police and communities have more opportunities to build partnerships and engage in proactive problem solving activities to fight crime, reduce the fear of crime, and improve the quality of life. The FY 2010 Budget proposes \$20,000,000 for this program.

Community Policing Development. This program provides funding for a variety of innovative and knowledge resource products that support the integration of community policing strategies throughout the law enforcement community to enable officers and community members to more effectively address emerging law enforcement and community issues. The FY 2010 Budget proposes \$16,000,000 for this program.

Indian County. This program provides funding and resources to meet the public safety needs of law enforcement and advance community policing in Native American communities. The FY 2010 Budget proposes \$20,000,000 for this program.

COPS Methamphetamine Grants. Meth grants assist state, local and tribal law enforcement agencies in combating

758 Office of Justice Programs—Continued Federal Funds—Continued

# COMMUNITY ORIENTED POLICING SERVICES—Continued

methamphetamine production and distribution, to target drug hot spots, and to remove and dispose of hazardous materials resulting from clandestine methamphetamine labs. The FY 2010 Budget proposes \$27,000,000 for this program.

Secure Our Schools. This program awards grants to state, local and tribal law enforcement agencies to provide improved security at schools or on school grounds. Funding can be used to install metal detectors, locks, lighting, and other deterrent measures in schools, for security assessments, and for security training of personnel and students. The FY 2010 Budget proposes \$16,000,000 for this program.

Child Predator Prosecution. This program provides grants to help locate, arrest and prosecute child sexual predators and exploiters, and enforce state sex offender registration laws. The FY 2010 Budget proposes \$18,000,000 for this program.

The FY 2010 Budget includes \$346 million for programs to be administered by OJP, including these initiatives:

Second Chance Act / Prisoner Reentry. This program supports offender reentry programs and research, including adult and juvenile offender demonstration projects and mentoring grants to nonprofit organizations. OJP will coordinate this initiative with the Department of Labor's Employment and Training Administration, which is also requesting funding for activities under the Second Chance Act. The FY 2010 Budget proposes \$100,000,000 for this program.

Paul Coverdell Forensic Science Improvement Grants. The Coverdell program awards grants to states and units of local government to improve the quality and timeliness of forensic science and medical examiner services, including those provided by state and local laboratories. The FY 2010 Budget proposes \$35,000,000 for this program.

*DNA Initiative*. This program provides capacity building grants, training, and technical assistance to state and local governments, and supports innovative research on DNA analysis and use of forensic evidence. The FY 2010 Budget proposes \$151,000,000 for this program.

Bulletproof Vest Partnership Program. This program protects the lives of law enforcement officers by helping states, units of local government, and tribal governments assist law enforcement and corrections officers procure armor vests. The FY 2010 Budget proposes \$25,000,000 for this program.

Gun and Gang Crime Prosecution Assistance. This program supports state, local, and tribal efforts to prosecute violent crime resulting from gang activity and the criminal misuse of firearms, and provides training for prosecutors on matters related to violent crime. The FY 2010 Budget proposes \$15,000,000 for this program.

National Criminal History Improvement Program. This program helps states and territories to improve the quality, timeliness, and immediate accessibility of criminal history and related records for use by federal, state, and local law enforcement. The FY 2010 Budget proposes \$10,000,000 for this program.

National Instant Background Check System. This program provides grants to assist state and tribal governments to assist in updating the National Instant Criminal Background Check System with the criminal history and mental health records of individuals who are precluded from purchasing or possessing guns. The FY 2010 Budget proposes \$10,000,000 for this program.

The Office on Violence Against Women (OVW) is requesting \$414 million for programs to prevent and respond to violence against women and related victims. OVW provides national leadership against domestic violence, dating violence, sexual assault, and stalking, and supports a multifaceted approach to re-

sponding to these crimes. Funding will support the Prevention and Prosecution of Violence Against Women and Related Victim Services Program.

For FY 2010, funding requested for this account will support the following initiatives:

STOP Violence Against Women Formula Grant Program. The STOP Program is designed to encourage the development and strengthening of effective law enforcement and prosecution strategies to combat violent crimes against women and the development and strengthening of victim services in cases involving violent crimes against women. This funding includes \$18,000,000 for Transitional Housing Assistance Grants, \$3,000,000 for National Institute of Justice research on violence against women, and \$10,000,000 for the Safe Start Program. The FY 2010 Budget proposes \$190,000,000 for this program.

Grants to Encourage Arrest Policies. This discretionary grant program is designed to encourage state, local, and tribal governments and state, local, and tribal courts to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law requiring the coordinated involvement of the entire criminal justice system. The FY 2010 Budget proposes \$60,000,000 for this program.

Sexual Assault Services Program. This program provides federal financial assistance to state coalitions to support the coordination of state victim services activities, and collaboration and coordination with federal, state, and local entities engaged in violence against women activities. The FY 2010 Budget proposes \$12,000,000 for this program.

Rural Domestic Violence Program. This program enhances the safety of child, youth and adult victims of domestic violence, dating violence, sexual assault, and stalking by supporting projects uniquely designed to address and prevent these crimes in rural jurisdictions. The FY 2010 Budget proposes \$41,000,000 for this program.

Grants to Reduce Violence Crimes Against Women on Campus. The Campus Program develops and strengthens victim services in cases involving violent crimes against women on campuses, and aims to strengthen security and investigative strategies to prevent and prosecute violent crimes against women on campuses. The FY 2010 Budget proposes \$9,500,000 for this program.

Legal Assistance for Victims Grant Program. The Legal Assistance Program increases the availability of civil and criminal legal assistance in order to provide effective aid to victims who are seeking relief in legal matters arising as a consequence of abuse or violence. The FY 2010 Budget proposes \$37,000,000 for this program.

Enhanced Training and Services to End Violence Against and Abuse of Women Later in Life. The program provides or enhances training and services to address elder abuse, neglect, and exploitation, including domestic violence, dating violence, sexual assault, or stalking, involving victims who are 50 years of age or older. The FY 2010 Budget proposes \$4,250,000 for this program.

Safe Havens: Supervised Visitation and Safe Exchange Grant Program. The Supervised Visitation Program supports creation of safe places for visitation with and exchange of children in cases of domestic violence, child abuse, sexual assault, or stalking. The FY 2010 Budget proposes \$14,000,000 for this program.

Education and Training to End Violence Against and Abuse of Women with Disabilities Grant Program. The Disabilities Grant Program builds the capacity of jurisdictions to address domestic violence, dating violence, stalking and sexual assault against individuals with disabilities through the creation of multi-disciplinary teams. The FY 2010 Budget proposes \$6,750,000 for this program.

760 Office of Justice Programs—Continued Federal Funds—Continued THE BUDGET FOR FISCAL YEAR 2010

# VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS—Continued

Engaging Men and Youth in Prevention Program. The Engaging Men and Youth in Prevention Program is designed to develop or enhance programs to engage men and youth in preventing domestic violence, dating violence, sexual assault, and stalking by helping them develop mutually respectful, nonviolent relationships. The FY 2010 Budget proposes \$3,000,000 for this program.

Tracking of Violence Against Indian Women. This funding is used to maintain a National Tribal Sex Offender Registry. The FY 2010 Budget proposes \$1,000,000 for this program.

Services to Advocate for and Respond to Youth Grant Program. This program supports projects that provide direct counseling, advocacy, legal, and mental health services for children and young adults who have experienced domestic violence, dating violence, sexual assault, or stalking. The FY 2010 Budget proposes \$3,500,000 for this program.

Children and Youth Exposed to Violence Grant Program. This program supports projects that provide services for children including direct counseling, advocacy, or mentoring. The FY 2010 Budget proposes \$3,000,000 for this program.

Court Training and Improvements Program. The Courts Program is designed to improve court responses to adult and youth domestic violence, dating violence, sexual assault, and stalking. The FY 2010 Budget proposes \$3,000,000 for this program.

National Resource Center on Workplace Responses to Assist Victims of Domestic and Sexual Violence. This program provides funding to eligible nonprofit organizations for the operation of a national resource center on workplace responses to assist victims of domestic and sexual violence. The FY 2010 Budget proposes \$1,000,000 for this program.

For FY 2010, funding requested for this account also will support the following initiatives administered by the Office of Justice Programs:

Court Appointed Special Advocate (CASA) Program. CASA supports programs across the country to ensure that abused and neglected children receive high-quality, sensitive, effective, and timely representation in dependency court hearings. The FY 2010 Budget proposes \$15 million for this program.

Child Abuse Training programs for Judicial Personnel. This program disseminates information, offers court improvement training programs, and provides technical assistance on dependency court best practices to improve courts' handling of child abuse and neglect cases nationwide. The FY 2010 Budget proposes \$2.5 million for this program.

Training to Assist Probation and Parole Officers. This program provides training and technical assistance to state, local, and tribal jurisdictions to help them establish comprehensive strategies to manage sex offenders under community supervision. The FY 2010 Budget proposes \$3,500,000 for this program.

Grants to Improve Stalking and Domestic Violence Databases. The program provides grants to upgrade the quality of state and local protection order systems and ensure that these systems are capable of exchanging information with the FBI National Crime Information Center (NCIC) Protection Order File on a real time basis. The FY 2010 Budget proposes \$3,000,000 for this program.

Analysis and Research on Violence Against Indian Women. This program supports comprehensive research on violence against Native American women. The FY 2010 Budget proposes \$1,000,000 for this program.

The Office of Justice Programs (OJP) is requesting \$317 million for the Juvenile Justice Programs appropriation. This appropriation account includes programs that support state, local and tribal community efforts to develop and implement effective and coordinated prevention and intervention juvenile programs. Such programs are designed to: reduce juvenile delinquency and crime, and improve the juvenile justice system so that it protects public safety, holds offenders accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

America's youth are facing an ever changing set of problems and barriers to successful lives. As a result, OJP is constantly challenged to develop enlightened policies and programs to address the needs and risks of those youth who enter the juvenile justice system. OJP remains committed to leading the nation in efforts addressing these challenges, which include: preparing juvenile offenders to return to their communities following release from secure correctional facilities; dealing with the small percent-

age of serious, violent, and chronic juvenile offenders; helping states address the disproportionate confinement of minority youth; and helping children who have been victimized by crime and child abuse.

Part B: Formula Grants. Supports state, local, and tribal efforts to develop and implement comprehensive state juvenile justice plans. Funds may be used for research, evaluation, statistics and other informational activities, and training and technical assistance. Funding is also available for training and technical assistance to help small, non-profit organizations, including faith-based organizations, with the federal grants process. The FY 2010 Budget proposes \$75,000,000 for this program.

Youth Mentoring. Funds support faith- and community-based, nonprofit, and for-profit agencies in the enhancement and expansion of existing mentoring strategies and programs; as well as assistance to develop, implement, and pilot test mentoring strategies and programs designed for youth in the juvenile justice, reentry, and foster care systems. In addition, OJJDP supports training and technical assistance to the sites to assist with adapting existing mentoring approaches to meet the needs of the target populations and to identify and maintain partnerships. The FY 2010 Budget proposes \$80,000,000 for this program.

Title V Local Delinquency Prevention Incentive Grants Program. Funds provide resources through state advisory groups to units of local government for a broad range of delinquency prevention programs and activities to benefit youth who are at risk of having contact with the juvenile justice system. The FY 2010 Budget proposes \$62,000,000 for this program, including \$25,000,000 each for the Tribal Youth and Underage Drinking Laws Programs, as well as \$10,000,000 for a Gang Education Program.

Victims of Crime Act (VOCA). Improving Investigation and Prosecution of Child Abuse Program. Funds support training and technical assistance to professionals involved in investigating, prosecuting, and treating child abuse. This program also supports the development of Children's Advocacy Centers and/or multidisciplinary teams designed to prevent the inadvertent revictimization of an abused child by the justice and social service systems in their efforts to protect the child. The FY 2010 Budget proposes \$20,000,000 for this program.

Community-Based Prevention Initiatives. Based on the violence reduction work of several cities and public health research of the last several decades, OJP will provide funding for community-based strategies that focus on street-level outreach, conflict mediation, and the changing of community norms to reduce violence, particularly shootings. The FY 2010 Budget proposes \$25,000,000 for this program.

The Office of Justice Programs is requesting \$69.1 million for the Public Safety Officers Benefits (PSOB) appropriation. This appropriation account supports one mandatory and two discretionary programs that provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a forty-year partnership among the Department of Justice; national public safety organizations; and state, local, and tribal public safety agencies.

Public Safety Officers Benefits. Created in 1976, the PSOB program oversees three types of benefits:

*Death Benefits.* The Death Benefits program provides a onetime financial benefit to survivors of public safety officers whose deaths resulted from injuries sustained in the line of duty.

Disability Benefits. The Disability Benefits program offers a one-time financial benefit to public safety officers permanently disabled by catastrophic injuries sustained in the line of duty. The FY 2010 Budget proposes \$5,000,000 for this discretionary program.

Education Benefits. This program provides financial support for higher education expenses to the eligible spouses and children of public safety officers killed or permanently disabled in the line of duty. The FY 2010 Budget proposes \$4,100,000 for this discretionary program.

Programs supported by the Crime Victims Fund focus on providing compensation to victims of crime and survivors; supporting appropriate victims' services programs and victimization prevention strategies; and building capacity to improve response to crime victims' needs and increase offender accountability. The Fund was established to address the need for victim services programs, and to assist State, local, and tribal governments in providing appropriate services to their communities.

The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Federal crimes. The 2010 Budget proposes to provide \$700 million from collections and balances for crime victim compensation, services, and related needs.

# GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

(INCLUDING CANCELLATION OF FUNDS)

SEC. 201. In addition to amounts otherwise made available in this title for official reception and representation expenses, a total of not to exceed \$50,000 from funds appropriated to the Department of Justice in this title shall be available to the Attorney General for official reception and representation expenses.

SEC. 202. None of the funds appropriated by this title shall be available to pay for an abortion, except [where the life of the mother would be endangered if the fetus were carried to term, or in the case of rape] (1) if the pregnancy is the result of an act of rape; or (2) in the case where a woman suffers from a physical disorder, physical injury, or physical illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would, as certified by a physician, place a woman in danger of death unless an abortion is performed: Provided, That should this prohibition be declared unconstitutional by a court of competent jurisdiction, this section shall be null and void.

SEC. 203. None of the funds appropriated under this title shall be used to require any person to perform, or facilitate in any way the performance of, any abortion.

SEC. 204. Nothing in the preceding section shall remove the obligation of the Director of the Bureau of Prisons to provide escort services necessary for a female inmate to receive such service outside the Federal facility: *Provided*, That nothing in this section in any way diminishes the effect of section 203 intended to address the philosophical beliefs of individual employees of the Bureau of Prisons.

SEC. 205. Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of Justice in this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: Provided, That any transfer pursuant to this section shall be treated as a reprogramming of funds under section 505 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section [: Provided further, That none of the funds appropriated to "Buildings and Facilities, Federal Prison System" in this or any other Act may be transferred to "Salaries and Expenses, Federal Prison System", or any other Department of Justice account, unless the President certifies that such a transfer is necessary to the national security interests of the United States, and such authority shall not be delegated, and shall be subject to section 505 of this Act 1.

SEC. 206. The Attorney General is authorized to extend through September 30, [2010] 2011, the Personnel Management Demonstration Project transferred to the Attorney General pursuant to section 1115 of the Homeland Security Act of 2002, Public Law 107-296 (6 U.S.C. 533) without limitation on the number of employees or the positions covered.

SEC. 207. Notwithstanding any other provision of law, Public Law 102-395 section 102(b) shall extend to the Bureau of Alcohol, Tobacco, Firearms and Explosives in the conduct of undercover investigative operations and shall apply without fiscal year limitation with respect to any undercover investigative operation [initiated] by the Bureau of Alcohol, Tobacco, Firearms and Explosives that is necessary for the detection and prosecution of crimes against the United States.

SEC. 208. None of the funds made available to the Department of Justice in this Act may be used for the purpose of transporting an individual who is a prisoner pursuant to conviction for crime under State or Federal law and is classified as a maximum or high security prisoner, other than to a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

Sec. 209. (a) None of the funds appropriated by this Act may be used by Federal prisons to purchase cable television services, to rent or pur764 GENERAL PROVISIONS—DEPARTMENT OF JUSTICE THE BUDGET FOR FISCAL YEAR 2010

chase videocassettes, videocassette recorders, or other audiovisual or electronic equipment used primarily for recreational purposes.

(b) The preceding sentence does not preclude the renting, maintenance, or purchase of audiovisual or electronic equipment for inmate training, religious, or educational programs.

[Sec. 210. None of the funds made available under this title shall be obligated or expended for Sentinel, or for any other major new or enhanced information technology program having total estimated development costs in excess of \$100,000,000, unless the Deputy Attorney General and the investment review board certify to the Committees on Appropriations that the information technology program has appropriate program management and contractor oversight mechanisms in place, and that the program is compatible with the enterprise architecture of the Department of Justice.]

[Sec. 211. The notification thresholds and procedures set forth in section 505 of this Act shall apply to deviations from the amounts designated for specific activities in this Act and accompanying statement, and to any use of deobligated balances of funds provided under this title in previous years.]

SEC. [212]210. None of the funds appropriated by this Act may be used to plan for, begin, continue, finish, process, or approve a public-private competition under the Office of Management and Budget Circular A-76 or any successor administrative regulation, directive, or policy for work performed by employees of the Bureau of Prisons or of Federal Prison Industries, Incorporated.

[Sec. 213. Notwithstanding any other provision of law, no funds shall be available for the salary, benefits, or expenses of any United States Attorney assigned dual or additional responsibilities by the Attorney General or his designee that exempt that United States Attorney from the residency requirements of 28 U.S.C. 545.]

[Sec. 214. None of the funds appropriated in this or any other Act shall be obligated for the initiation of a future phase of the Federal Bureau of Investigation's Sentinel program until the Attorney General certifies to the Committees on Appropriations that existing phases currently under contract for development or fielding have completed a majority of the work for that phase under the performance measurement baseline validated by the integrated baseline review conducted in 2008: *Provided*, That this restriction does not apply to planning and design activities for future phases: *Provided further*, That the Bureau will notify the Committees on Appropriations of any significant changes to the baseline.]

[SEC. 215. (a) The Attorney General shall submit quarterly reports to the Inspector General of the Department of Justice regarding the costs and contracting procedures relating to each conference held by the Department of Justice during fiscal year 2009 for which the cost to the Government was more than \$20,000.

- (b) Each report submitted under subsection (a) shall include, for each conference described in that subsection held during the applicable quarter—
- (1) a description of the subject of and number of participants attending that conference;
- (2) a detailed statement of the costs to the Government relating to that conference, including—

- (A) the cost of any food or beverages;
- (B) the cost of any audio-visual services; and
- (C) a discussion of the methodology used to determine which costs relate to that conference; and
- (3) a description of the contracting procedures relating to that conference, including—
- (A) whether contracts were awarded on a competitive basis for that conference; and
- (B) a discussion of any cost comparison conducted by the Department of Justice in evaluating potential contractors for that conference. 1

SEC. 211. Of the unobligated recoveries from prior year appropriations for the Office of Justice Programs, \$42,000,000 are hereby permanently cancelled: Provided, That no amounts may be cancelled from amounts that were designated by the Congress as an emergency requirement pursuant to the Concurrent Resolution on the Budget or the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

Sec. 212. Section 5759 of Title 5, United States Code, is amended by striking subsection (e).

SEC. 213. (a) Subchapter IV of chapter 57 of title 5, United States Code, is amended by adding at the end the following:

"5761. Foreign language proficiency awards for the Federal Bureau of Investigation

"The Director of the Federal Bureau of Investigation may, under regulations prescribed by the Director, pay a cash award of up to 10 percent of basic pay to any Bureau employee who maintains proficiency in a language or languages critical to the mission or who uses one or more foreign languages in the performance of official duties."

(b) The analysis for chapter 57 of title 5, United States Code, is amended by adding at the end the following:

"5761. Foreign language proficiency awards for the Federal Bureau of Investigation."

SEC. 214. At the discretion of the Attorney General, and in addition to any amounts that otherwise may be available (or authorized to be made available) by law, with respect to funds appropriated by this or any other act under the headings for "Justice Assistance", "State and Local Law Enforcement Assistance", "Weed and Seed", "Community Oriented Policing Services", "Violence Against Women Prevention and Prosecution Programs," and "Juvenile Justice Programs"— (a) Up to three percent of funds made available to the Office of Justice Programs for grants or reimbursement may be used to provide training and technical assistance; and (b) Up to one percent of funds made available to such Office for formula grants under such headings may be used for research or statistical purposes by the National Institute of Justice or the Bureau of Justice Statistics, pursuant to, respectively, sections 201 and 202, and sections 301 and 302, of title I of P.L. 90-351.

SEC. 215. Funds appropriated by this chapter, or made available by the transfer of funds in this chapter, for intelligence or intelligence related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414). (Department of Justice Appropriations Act, 2009.)
