This revolving fund provides for real property management and related activities, including operation, maintenance, repair of Federally owned buildings, and the construction of Federal buildings, courthouses and land ports of entry. Expenses of the Federal Buildings Fund (FBF) are financed from rental charges assessed to occupants of GSA-controlled space. Rent assessments, by law, approximate commercial rates for comparable space and services. Rental income is augmented by appropriations to the fund when new construction needs exceed the resources available for investment within the fund.

The following table reports rent and other income to the fund.

The FBF consists of the following activities:

Construction and acquisition of facilities.—This activity provides for the acquisition of space through the construction or purchase of facilities and prospectus-level extensions to existing buildings. All costs directly attributable to site acquisition, construction, and the full range of design and construction services and management and inspection of construction projects are funded under this activity.

Repairs and alterations.—This activity provides for repairs and alterations of public buildings as well as associated design and construction services. Protection of the Government's investment, health and safety of building occupants, transfer of agencies from leased space, and cost effectiveness are the principal criteria used in establishing priorities. Primary consideration is given to repairs to prevent deterioration and damage to buildings, their support systems, and operating equipment.

Installment acquisition payments.—This activity provides payments for liabilities incurred under purchase contract authority and lease purchase arrangements. Periodic payments cover principal, interest, and other requirements.

Rental of space.—This activity provides for the acquisition of space through the lease of buildings from private sector landlords. Including space occupied by Federal agencies in U.S. Postal Service facilities, the FBF will provide an estimated 190 million rentable square feet in 2009 and 194 million rentable square feet in 2010.

Building operations.—This activity provides services for Government-owned and leased facilities, including cleaning, utilities and fuel, maintenance, miscellaneous services (such as moving, evaluation of new materials and equipment, and field supervision), and general management and administration of all real property related programs including salaries and benefits paid from the FBF. The following table provides additional detail regarding the 2009 and 2010 building operations program (estimated square feet and expenses in millions):

	2009		2010	
	Square feet	Expenses	Square feet	Expenses

Total	2,296	2,356

Other programs.—When requested by Federal agencies, the Public Buildings Service provides building services such as tenant alterations and cleaning and other operations which are in excess of those services provided under the commercial rental charge.

This appropriation covers relocation costs involved in moving agencies from valuable underutilized property, targeted for public sale, to facilities determined to be more economically suitable to their needs. Relocation and disposal is considered when the benefit/cost ratio is at least 2:1. The sale of these valuable underutilized properties would provide significant revenue to the Treasury and would far outweigh the relocation costs involved.

No appropriation is requested for this program in 2010. GSA will solicit relocation proposals from agencies.

This full cost recovery revolving fund provides for the acquisition of information technology solutions, telecommunications products and services, professional services, travel and transportation services, vehicles, and supplies for Federal agencies. Expenses of the Acquisition Services Fund (ASF) are financed through receipts from customer Federal agencies, pursuant to P.L. 109-313. The ASF is organized around four major business portfolios that deliver total solutions to customer agencies. These portfolios are: Integrated Technology Services (ITS), Assisted Acquisition Services (AAS), General Supplies and Services (GSS), and Travel, Motor Vehicle and Card Services (TMVCS).

The ITS Portfolio provides customer agencies with information technology and telecommunications products and services. Operations within this portfolio include Multiple-Award Schedules (MAS) and Government-wide Acquisition Contracts (GWACs) for the information technology and telecommunication business units. ITS operations aggregate and leverage the Federal Government's buying power to obtain a wide range of information technology and telecommunications products and services at significant savings for customer agencies.

The AAS Portfolio focuses on service delivery and assisting customers in making informed procurement decisions and serving as a center of excellence for the Federal community. AAS complements the programs of the Integrated Technology Services portfolio by providing acquisition, technical, and project management services that assist agencies in acquiring and deploying information technology and professional services solutions at the best value for taxpayer dollars.

The GSS Portfolio provides customer agencies a wide range of general products such as furniture, office supplies, and hardware products. GSS centralizes acquisitions on behalf of the Federal Government in order to strategically procure requirements and reduce cost to the government, while ensuring regulatory compliance for customers procurements. This portfolio also provides personal property disposal services to customer agencies.

The TMVCS Portfolio provides customer agencies with a broad scope of services that include travel and relocation services, freight management, motor vehicle acquisition, fleet management, and charge card services. TMVCS operations also aggregate and leverage the Federal Government's buying power to obtain a wide range of products and services at significant savings for customer agencies.

This appropriation provides agency-wide audit and investigative functions to identify and correct management and administrative deficiencies within GSA, which create conditions for existing or potential instances of fraud, waste and mismanagement. The audit function provides internal audit and contract audit services. Contract audits provide professional advice to GSA contracting

officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of GSA operations and programs, test internal control systems, and develop information to improve operating efficiencies and enhance customer services. The investigative function provides for the detection and investigation of improper and illegal activities involving GSA programs, personnel, and operations. The 2010 Budget provides \$450,000 in reimbursable authority for surveys of Fleet Card Program and other Agency reimbursable programs. Budget authority and other data provided here include \$7,000,000 provided by the American Reinvestment and Recovery Act of 2009 (Public Law 111-5.)

This revolving fund supports the Office of Citizen Services (OCS), which provides access points for citizens, businesses, other governments, and the media to obtain government information and services easily via the Web, e-mail, print, and the telephone. The Federal Citizen Services Fund is financed from annual appropriations from the general funds of the Treasury, reimbursements from agencies, fees collected from the public, gifts for undertaking Federal information activities, and other income incident to OCS activities. The Fund is authorized to retain unobligated amounts at the end of each fiscal year and obligate those amounts in subsequent fiscal years.

OCS maintains close working relationships with more than 40 Federal departments and agencies to identify, develop, promote, and make Federal information easily accessible to the public through a variety of channels. These channels include Internet websites located at USA.gov and Gobierno USA.gov (the US Government's official web portal), Pueblo.gsa.gov, ConsumerAction.gov, Kids.gov, and Info.gov. OCS operates a toll-free National Contact Center (1-800-FED-INFO) for responding to citizen telephone and e-mail inquiries about the Federal Government. OCS also publishes and distributes the quarterly Consumer Information Catalog, which lists Federal publications available to citizens through Pueblo, Colorado, and the Consumer Action Handbook, which provides information to citizens for resolving consumer problems. OCS operates these information outlets as part of the USA Services E-Gov initiative, which seeks to make government more citizen-centric. Additionally, OCS has awarded and operates a government-wide contracting vehicle (USA Contact) through which agencies can quickly and easily obtain contact center services to support their needs to communicate with the public.

Administrative expenses.—Administrative expenses are funded by an appropriation to the Fund, by fees collected from agencies and the public, and by revenue received through the Fund's gift authority.

Reimbursements.—OCS provides a variety of citizen-centric services, e.g., publication distribution and contact center services, to other agencies and organizations and bills them to cover the costs of providing these services.

This full cost recovery revolving fund provides internal GSA customers with a full range of shared administrative services. Expenses of the Working Capital Fund (WCF) are financed through reimbursable funding from GSA's benefiting accounts and from external sources, including small agencies and commissions, for services provided. Reimbursable services include information technology management, financial management, legal advice and services, equal employment opportunity services, liaison activities with the Congress and Office of Management and Budget, and oversight of GSA contracting activities. This account

also funds liaison with the Small Business Administration on small business proposals and contracts to ensure that small and small, disadvantaged businesses receive a fair share of the agency's business. The WCF also supports GSA's role as a Shared Service Provider (SSP) under the Financial Management Line of Business (FMLOB) program, under which, GSA provides standard, compliant, and cost-effective financial management services and systems to other Federal agencies.
