

# You dump it, you drink it.

If you change your own motor oil, protect our environment by recycling this valuable resource. Take your used motor oil to your nearest collection center, such as a service station, lube center or automotive store. Oil dumped down storm drains contaminates our water. To find your nearest used oil collection center, call 1-800-CLEANUP or visit [www.cleanup.org](http://www.cleanup.org).
