

Don't gamble with export inventory and accounts receivable

The Export-Import Bank assumes risk involved with lending against export accounts receivable and inventory that most commercial lenders are unable or unwilling to accept. Backed by the full faith and credit of the U.S., Ex-Im Bank can expand the collateral base for lenders' existing customers, as well as decrease the amount of money the lenders must keep in their reserves. Let the Export-Import Bank carry your risk!

Let the Export-Import Bank carry your risk!
