April 2008 Passenger Airline Employment Up 1.0 Percent from April 2007

U.S. scheduled passenger airlines employed 1.0 percent more workers in April 2008 than in April 2007, the 15th consecutive increase in full-time equivalent employee (FTE) levels for the scheduled passenger carriers from the same month of the previous year but the smallest year-to-year increase since March 2007, the U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) reported today (Table 2). FTE calculations count two part-time employees as one full-time employee.

The seven network carriers except American Airlines added FTEs from April 2007 to April 2008 (Table 9). All of the currently reporting low-cost carriers (Table 12) and regional carriers American Eagle Airlines, SkyWest Airlines, Horizon Air, Pinnacle Airlines, Mesaba Airlines, Executive Airlines, Air Wisconsin Airlines, Shuttle America and GoJet Airlines (Table 15) increased their FTEs compared to last year.

Scheduled passenger airlines include network, low-cost, regional and other airlines. Many regional carriers were not required to report employment numbers before 2003, so year-to-year comparisons involving regional carriers, or the total industry, are not available for the years before 2003.

The seven network carriers employed 283,684 FTEs in April, 68.5 percent of the passenger airline total, while low-cost carriers employed 14.8 percent and regional carriers employed 14.5 percent (Table 4).

American Airlines employed the most FTEs in April among the network carriers, Southwest Airlines employed the most among low-cost carriers, and American Eagle employed the most among regional carriers. Seven of the top 10 employers in the industry are network carriers (Table 6).

America West Airlines and US Airways now operate under a single certificate. Joint reporting began with October 2007 data. US Airways' employment numbers were included with the network airlines prior to October 2007 while America West's numbers were included with the low-cost airlines. Beginning with October 2007, US Airways' numbers are combined with America West Airlines' numbers in the network category. The combined carrier's numbers were included in the low-cost category for October 2007 through February 2008 in the releases for those months. The numbers for those months have been revised beginning with the March 2008 release to include the combined carrier's numbers in the network category for all months. The revision was due to a BTS recalculation based on the airline's fourth quarter financial report released May 19.

AIRLINE EMPLOYMENT PRESS RELEASE

ADD ONE

The merged airline, listed in the network category, reported 32,993 FTEs for April 2008. In April 2007, US Airways reported 19,695 FTEs in the network category and America West reported 13,062 FTEs in the low-cost category for a total of 32,757.

Network Airlines

FTEs at the seven network carriers increased 7.1 percent in April 2008 compared to April 2007, the 12th consecutive monthly gain from the same month of the previous year. Prior to an increase in May, the network group had reduced FTEs from the previous year every month since September 2001 (Table 7).

All the network carriers except American Airlines increased FTEs from April 2007 to April 2008. The year-to-year increases were US Airways 67.5 percent, Delta Air Lines 6.3 percent, Alaska Airlines 6.3 percent, Continental Airlines 3.0 percent, Northwest Airlines 1.0 percent and United Airlines 1.6 percent. American's year-to-year employment decline was 0.2 percent (Table 9).

FTEs at four network carriers declined during the four years from April 2004 to April 2008. The exceptions were Continental with a 6.1 percent increase, Alaska with a 0.6 percent increase and the newly combined US Airways with a 26.5 percent gain (Table 8). The biggest percentage decline was at Northwest, down 23.7 percent, a reduction of 9,114 FTEs, followed by Delta at 15.8 percent. The other FTE decreases during that time were United, down 11.3 percent; and American, down 7.7 (Table 9).

Network carriers operate a significant portion of their flights using at least one hub where connections are made for flights to down-line destinations or spoke cities.

Low-Cost Airlines

Since the America West and US Airways report was combined last October and following the BTS recalculation of the carrier groups to place the merged airline in the network category, low-cost carrier FTEs have decreased for seven consecutive months through April compared to the same month of the previous year (Tables 10, 11).

Although the merger resulted in a year-to-year decline for the group, all the carriers remaining in the low-cost group for April 2008 had FTE increases from April 2007. Spirit Airlines reported an increase of 14.9 percent. ATA Airlines, which reported 2,407 FTEs in April 2007, stopped operating on April 3 and ceased reporting employment data effective in March (Table 12).

Employment data for Independence Air, which changed its business model from a regional to low-cost carrier in mid-2004 and ceased operation in January 2006, have been included with low-cost carriers for 2004 and 2005.

Low-cost carriers are those that the industry recognizes as operating under a low-cost business model, with lower infrastructure costs and higher productivity. Two new low-cost carriers, SkyBus Airlines and Virgin America, began reporting employment data in August. SkyBus ceased operations on April 5. Virgin America reported 791 FTE employees in April 2008 (Table 12).

AIRLINE EMPLOYMENT PRESS RELEASE ADD TWO

Regional Airlines

Regional carrier FTEs were down 0.2 percent in April 2008 compared to April 2007 (Table 13).

Republic and Mesaba reported the largest increases in the group. Republic employed 60.4 percent more FTEs in April 2008 than April 2007, while Mesaba employed 19.6 percent more (Table 15).

Regional carrier FTEs rose from 56,574 in April 2005 to 60,027 in April 2008, an increase of 6.1 percent (Table 14).

The 11 regional carriers reporting employment data in both 2004 and 2008 employed 9.5 percent more FTEs in April 2008 than in April 2004. Of that group, Pinnacle reported the biggest gain, 69.5 percent, followed by SkyWest at 58.2 percent and ExpressJet at 22.1 percent. Atlantic Southeast Airlines, Air Wisconsin Airlines, Mesa Airlines, and Executive Airlines reported fewer FTEs in April 2008 than April 2004 (Table 15).

Effective with April 2008 reporting, Trans States Airlines no longer met the reporting requirements for filing monthly airline employment data. Trans States reported 1,268 FTEs in April 2007.

Regional carrier Compass Airlines began reporting employment data in November. Compass reported 500 FTEs in April (Table 15). Regional carrier Lynx Airlines began reporting employment data in February 2008. Lynx reported 344 FTEs in April (Table 12).

Regional carriers typically provide service from small cities, using primarily regional jets to support the network carriers' hub and spoke systems.

Reporting Notes

Airlines that operate at least one aircraft with the capacity to carry combined passengers, cargo and fuel of 18,000 pounds – the payload factor – must report monthly employment statistics.

The Other Carrier category generally reflects those airlines that operate within specific niche markets, such as Continental Micronesia and Hawaiian Airlines in serving the Hawaiian Islands.

Data are compiled from monthly reports filed with BTS by commercial air carriers as of June 4.

Additional airline employment data can be found on the BTS website at http://www.bts.gov/programs/airline_information/number_of_employees/. BTS has scheduled release of May airline employment data for July 15.

The combined carrier's numbers were included in the low-cost category for October 2007 through February 2008 in the releases for those months. The numbers for those months have been revised beginning with the March 2008 release to include the combined carrier's numbers in the network category for all months. The revision was due to a BTS recalculation based on the airline's fourth quarter financial report released May 19.

*** Virgin America and SkyBus began reporting employment data in August 2007

**** ATA Airlines ceased operating on April 3, 2008 and stopped reporting employment data effective in March.

***** SkyBus has ceased flight operations and stopped reporting employment data effective with April 2008.

Note: Percent changes and averages based on numbers prior to rounding.

Note: Detail may not add to total due to rounding.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** Beginning with October 2007, US Airways' numbers are combined with America West's numbers in the network category. For US Airways previous year numbers and for the combined number in the network category, see Table 9.

***Employment numbers in 2004 and 2005 for Independence Air, which changed its business model from a regional to low-cost carrier in mid-2004, are included with low-cost carriers. The carrier did not meet the standard for filing in previous years. The airline discontinued flights on Jan. 5, 2006.

**** Virgin America and SkyBus began reporting employment data in August 2007

***** ATA Airlines ceased operating on April 3, 2008 and stopped reporting employment data effective in March.

***** SkyBus ceased operating on April 5, 2008 and stopped reporting employment data effective in April.

N/A: Carrier did not meet the standard for filing, was no longer operating, merged with another operating carrier or failed to file. See previous notes.

Note: Percent changes based on numbers prior to rounding.

Note: Detail may not add to total due to rounding.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** Some regional carriers were not required to report employment numbers before 2005, so year-to-year comparisons involving regional carriers, or the total industry, are not appropriate for the years before 2005. The Percent Change 2004-2008 is based on the 12 carriers reporting in both years.

*** Effective with April 2008 reporting, Trans States Airlines no longer met the reporting requirements for filing monthly airline employment data.

N/A: Not applicable because carriers did not meet the standard for filing.

Note: Detail may not add to total due to rounding.
