IV. Notice of Amendment to the List of Articles Subject to Review

On July 28, 1995, USTR published the list of articles subject to review in the Federal Register (60 FR 38856). USTR has made certain amendments to that list. Case numbers 95–21, 95–29, 95–31, 95–33, 95–35, 95–39 and 95–43 (the competitive need limit waivers petitions for Malaysia) have been deleted due to the proposed graduation of Malaysia

from GSP effective January 1, 1997. Due to changes in the nomenclature of the HTS effective January 1, 1996, the list of articles in the notice are modified by changing the HTS subheading for case number 95-28 to 8469.12.00, changing the HTS subheading for case number 95–30 into two subheadings and subdividing the case into case number 95-30A for 8471.49.26 and case number 95-30B for 8471.60.35, changing the HTS subheading for case number 95–32 into two subheading and subdividing the case into case number 95-32A for 8517.19.40 and case number 95-32B for 8517.19.80, and changing the HTS subheading for case number 95-34 to 8517.21.00.

V. Notice Regarding 1996 Annual Review of GSP and Least Developed Beneficiary Developing Country Review

Ordinarily, the TPSC would have invited the submission of petitions for the 1996 Annual GSP Review on June 1, 1996. At that time, however, the program had not been reauthorized. The legislation reinstating the GSP program is effective October 1, 1996 with a provision permitting refunding by Customs after October 1, 1996, of duties that would not have been paid between July 31, 1995 and October 1, 1996 if the GSP program had been in effect. But because the legislation only provides for extension of the GSP program until May 31, 1997, the TPSC has decided that it will not solicit petitions for the 1996 Annual GSP Review.

An announcement will appear at a later date in the Federal Register concerning the timetable of the review to add products to the GSP program only for the least developed beneficiary developing countries as provided for in the amended GSP statute.

VI. Terminated Country Practice Reviews

Due to progress in protecting intellectual property rights, the reviews of El Salvador and Poland have been terminated.

Federal Aviation Administration

Kansas City International Airport, Kansas City, Missouri; FAA Approval of Noise Compatibility Program

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the Noise Compatibility Program submitted by the city of Kansas City under the provisions of Title I of the Aviation Safety and Noise Abatement Act (ASNA) of 1979 (Public Law 96–193) and 14 CFR part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On February 9, 1996, the FAA determined that the Noise Exposure Maps submitted by the city of Kansas City under part 150 were in compliance with applicable requirements. On August 5, 1996, the Associate Administrator for Airports approved the Kansas City International Airport Noise Compatibility Program. Of the 24 recommended measures, 19 measures were approved, one measure was partially approved, 3 measures were disapproved for part 150 purposes, and one measure was disapproved pending further submittal of information. While three measures were disapproved because they did not meet part 150 criteria, they were zoning measures that the FAA would encourage Kansas City to implement as a local measure outside of the part 150 process.

EFFECTIVE DATE: The effective date of the FAA's approval of the Kansas City International Airport Noise Compatibility Program is August 5, 1996.

FOR FURTHER INFORMATION CONTACT: Moira D. Keane, ACE-615B, Federal Aviation Administration, Airports Division, 601 E. 12th St., Kansas City, Missouri 64106. Telephone No. (816) 426-4731. Documents reflecting this FAA action may be obtained from the same individual.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the Noise Compatibility Program for the Kansas City International Airport, effective August 5, 1996.

Under Section 104(a) the Aviation Safety and Noise Abatement Act (ASNA) of 1979, an airport operator who has previously submitted a Noise Exposure Map may submit to the FAA a Noise Compatibility Program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatible land uses and prevention of additional noncompatible land uses within the area covered by the Noise Exposure Maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government
