Technical comments:⁵

The Commission staff notes that HTS heading 9902.02.07 had provided a temporary duty suspension for the subject product that expired on December 31, 2006. That heading should be used to renew the duty suspension. The article description on page 1 of this report should be used in heading 9902.02.07 to provide the proper chemical name.

⁵ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
