Sleeping bags are warmly lined or padded body-length fabric bags, with zippers or other closures for access, in which one or two persons can sleep, especially when camping. Such goods designed for outdoor use are often waterproof. The bill would cover only sleeping bags of man-made fibers which have shell and lining fabrics that do not exceed 2.2 ounces per square yard in weight and do not contain 20 percent or more by weight of feathers and/or down. The bulk of the subject imports are from China, followed by Hong Kong, the United Kingdom, and Korea. Dutiable U.S. imports under HTS subheading 9404.30.80 (a broader category than is covered by this bill) totaled \$95.5 million in 2007, with China accounting for \$94 million in shipments.

Technical comments:⁴

The article description should be amended as shown on page 1 and should contain metric units of measurement.

⁴ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
