

Storing Used Motor Oil

You dump it, you drink it.

Properly store used motor oil to protect the environment and our health.

- 1 Label all containers and tanks as “Used Motor Oil.”**
- 2 Keep containers and tanks in good condition.**
Don't allow tanks to rust, leak or deteriorate. Repair structural defects immediately.
- 3 Never store used motor oil in anything other than tanks and storage containers.**
- 4 Store used motor oil in safe areas away from workers.**
- 5 Do not mix used motor oil with anything.**
Store separately from sorbents and chemicals.
