

with their presentation at the conference no later than three days before the conference. If briefs or written testimony contain BPI, they must conform with the requirements of §§ 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by § 201.8 of the Commission's rules, as amended, 67 FR 68036 (November 8, 2002).

In accordance with §§ 201.16(c) and 207.3 of the rules, each document filed by a party to the investigations must be served on all other parties to the investigations (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: These investigations are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.12 of the Commission's rules.

Issued: June 24, 2003.

By order of the Commission.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-1015-1016 (Final)]

Polyvinyl Alcohol From Germany and Japan

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. 1673d(b)) (the Act), that an industry in the United States is threatened with material injury² by reason of imports from Japan of polyvinyl alcohol ("PVA"),³ provided

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Pursuant to section 735(b)(4)(B) of the Act (19 U.S.C. 1673d(b)(4)(B)), the Commission further determines that it would not have found material injury by reason of the subject imports from Japan but for any suspension of liquidation of entries of that merchandise.

³ For purposes of these investigations, PVA is defined as all polyvinyl alcohol hydrolyzed in excess of 80 percent, whether or not mixed or diluted with commercial levels of defoamer or boric acid, except as excluded from the definition. The

for in subheading 3905.30.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce (Commerce) to be sold in the United States at less than fair value (LTFV).⁴ The Commission also determines, pursuant to section 735(b) of the Act, that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded, by reason of imports from Germany of PVA that have been found by Commerce to be sold in the United States at LTFV.

following forms of polyvinyl alcohol are excluded from the definition of PVA:

- (1) PVA in fiber form;
 - (2) PVA with hydrolysis less than 83 mole percent and certified not for use in the production of textiles;
 - (3) PVA with hydrolysis greater than 85 percent and viscosity greater than or equal to 90 cps;
 - (4) PVA with a hydrolysis greater than 85 percent, viscosity greater than or equal to 80 cps but less than 90 cps, certified for use in an ink jet application;
 - (5) PVA for use in the manufacture of an excipient or as an excipient in the manufacture of film coating systems which are components of a drug or dietary supplement, and accompanied by an end-use certification;
 - (6) PVA covalently bonded with cationic monomer uniformly present on all polymer chains in a concentration equal to or greater than one mole percent;
 - (7) PVA covalently bonded with carboxylic acid uniformly present on all polymer chains in a concentration equal to or greater than two mole percent, certified for use in a paper application;
 - (8) PVA covalently bonded with thiol uniformly present on all polymer chains, certified for use in emulsion polymerization of non-vinyl acetic material;
 - (9) PVA covalently bonded with paraffin uniformly present on all polymer chains in a concentration equal to or greater than one mole percent;
 - (10) PVA covalently bonded with silan uniformly present on all polymer chains certified for use in paper coating applications;
 - (11) PVA covalently bonded with sulfonic acid uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent;
 - (12) PVA covalently bonded with acetoacetylate uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent;
 - (13) PVA covalently bonded with polyethylene oxide uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent;
 - (14) PVA covalently bonded with quaternary amine uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent; and
 - (15) PVA covalently bonded with diacetoneacrylamide uniformly present on all polymer chains in a concentration level greater than three mole percent certified for use in a paper application.
- ⁴ Vice Chairman Jennifer A. Hillman made a negative determination with respect to Japan.

Background

The Commission instituted these investigations effective September 5, 2002, following receipt of a petition filed with the Commission and Commerce by Celanese, Ltd. of Dallas, TX and E.I. du Pont de Nemours & Co. of Wilmington, DE. The final phases of the investigations were scheduled by the Commission following notification of preliminary determinations by Commerce that imports of polyvinyl alcohol from Germany and Japan were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phases of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 7, 2003 (68 FR 11144). The hearing was held in Washington, DC, on May 8, 2003, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on June 18, 2003. The views of the Commission are contained in USITC Publication 3604 (June 2003), entitled Polyvinyl Alcohol from Germany and Japan: Investigations Nos. 1015-1016 (Final).

By order of the Commission.

Issued: June 23, 2003.

Marilyn R. Abbott,

Secretary.

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review; Comment Request

June 13, 2003.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by calling the Department of Labor. To obtain documentation, contact Darrin King on 202-693-4129 (this is not a toll-free number) or E-Mail: King.Darrin@dol.gov.
