I. BACKGROUND

1. At its 22<sup>nd</sup> Session (November 1998), the Committee exchanged preliminary views on the classification of the multimedia upgrade kits "I See U Plus", on the basis of Docs. 42.111 and 42.729.
2. It was agreed to ask the Secretariat to study the question further on the basis of comments to be submitted by administrations, taking into account the views expressed by the delegates.

II. SECRETARIAT COMMENTS

3. The Secretariat had not received any comments from administrations by the time of the preparation of this document and, therefore, tried to contact the manufacturer. In response to our enquiries, the Secretariat was informed that the manufacturer is no longer in business. Consequently, the Secretariat is not in a position to provide answers to some of the technical questions posed by delegates concerning the operation of the "I See U Plus" kits.

III. CONCLUSION

4. Since it was the Secretariat that originally raised this question, we would have no objection to the question being dropped. However, the Secretariat leaves it to the Committee to decide on what further action should be taken on this issue.
