I. BACKGROUND

1. At its 24th Session in October 1999, the Committee classified a freezer for foodstuffs in subheading 8418.30, by application of General Interpretative Rules 1 and 6.
2. Given that this classification question had been submitted by Argentina which was not represented at the session, the Secretariat was instructed to ask the Argentine Administration whether it wanted a Classification Opinion on the matter.

II. SECRETARIAT COMMENTS

3. By fax of 8 November 1999, the Argentine Administration informed the Secretariat that it wished to have a Classification Opinion reflecting the Committee's decision.
4. Consequently, the Secretariat has prepared a draft Classification Opinion on the apparatus covered by the Committee's decision.
5. The texts proposed by the Secretariat are appended hereto.

File No. 2761

I. CONCLUSION

6. The Committee is invited to rule on the appended texts once they have been finalized by the presessional Working Party.
