42.723 (PC/40)	NC0250E2, paragraphs 33 and 34 (HSC/25 – Report)

I. RECENT DEVELOPMENTS

1. The Secretariat concluded its preparatory work on the "Harmonizer" CD-ROM by the end of May 2000.
2. Based on the survey conducted in early 1999 with regard to the market for the product, the Secretariat ordered 1,000 copies of the "Harmonizer" CD-ROM, which were delivered in early July this year. The CD-ROM contains the French and English versions on the same disc. 174 CD-ROMs have been sold as of the end of September 2000.
3. As for the possible Internet version, the Secretariat is still considering the financial repercussions on the WCO, while watching the sales of the CD-ROM for the time being.

II. CONCLUSION

4. The Committee is invited to take note of progress with regard to this project.
