RE: Abandoned Pipelines Offshore and Onshore at Commercially Navigable Waterways

Dear Sir:

In compliance with DOT 192.727 (g), attached herewith is Columbia Gulf Transmission Company's list of Abandoned Pipelines Offshore and Onshore at Commercially Navigable Waterways.

As to the method of abandonment, Columbia Gulf typically abandoned these pipelines in place, filled with water or inert materials, and sealed at both ends.

To the best of my knowledge, I have provided all of the requested information that is reasonably available about the subject abandoned pipeline facility and, to the best of my knowledge, this abandoned pipeline facility was abandoned in accordance with all applicable State and Federal requirements in effect at the time of the abandonment.

Should you have any questions, please do not hesitate to contact me at 713-267-4371.

Sincerely,

Henry H. Wang
