Subject: FY 2007 Approval of Title II Projects

To: Linda Goodman

Olympic National Forest's Resource Advisory Committee (RAC) met June 22 of this year to review and recommend Title II project proposals for FY 2007. I am approving, by way of this letter, all of the projects that the RAC recommended. A list of the approved projects with the recommended funding is attached.

Final award of these projects will be dependent upon the Title II funding levels voted upon by the commissioners from each county. If additional funds become available, those projects that are currently listed below the funding line will be funded based on RAC priority.
