a. Annual Maintenance Completed: Yes  No

b. Reconstruction Completed: Yes  No

## 4) Compliance: Yes No

Over the course of the summer there were some issues with cows in wrong pastures. An early summer heavy rain deposited sediment in two key cattleguards between pasture allowing the cattle to cross freely. The range staff and permittee's worked to rectify the problem by cleaning out the cattleguards in questions eliminating the issue that developed.

### a. Notice of Non-Compliance/Justification

N/A

## 5) Monitoring

a. **EOY (Effectiveness)** Stubble standards were not met in Dodge Basin pasture because of issues with cattle in the wrong pasture as outlined above. North Fork Guerry Gulch pasture did meet end of year stubble standards.

b. **Long Term (Implementation)** N/A
