

2007 MONITORING
Williams Basin-Napias Creek Allotment

PERMITTEE(S): Billie Creek Cattle (Dale Edwards), Paul Edwards, Cole Ranch Partnership

<u>DATE</u>	<u>INSPECTOR</u>	<u>AREA</u>	<u>OBSERVATIONS</u>
6/19/07	Riebe	Lower Williams Cr.	Noticed cattle use along road and in day use area of lower Williams Cr.
6/20/07	Evans	Cougar Point Camp ground	Cattle trailing thru, loitering, and leaving a mess in campground area. Asked Ranger to contact permittee.
6/20/07	Riebe		Left message with Paul Edwards, advising to move cattle to location above Cougar Point. Later in day, observed cattle on upper slope above road.
6/21/07		Call	Paul Edwards left message that the lower fence was in disrepair, and County had not maintained cattleguard on main road. Wants to discuss a long term solution.
08/23/07	Garechana	Phone Call	Called Paul about cattle hanging around Cutler and Mocassin meadows that need to be moved. Said he would get them moved the next day.
09/24/07	Goodin	Phelan	Phelan Unit had ~8 pairs of cows in camp area north of Mackinaw Creek and South Phelan Creek. 2 pair of cows at California Bar Ranger Station.
10/17/07	Goodin	Phelan/Arnett/ Napias/ Moccasin	Measured stubble height at Phelan Creek, Arnett Creek, Napias Creek, and Moccasin Creek. The median height at Phelan Creek was 6 inches. The median height at Arnett Creek was 7 inches. Two areas were measured on Napias Creek, one above Arnett Creek and another below the Wade Frasier Bridge. The median for above Arnett Creek and for below the Wade Frasier Bridge was 5 inches. The median height for Moccasin Creek was 5 inches.
