DISCONTINUED SURFACE-WATER DISCHARGE OR STAGE-ONLY STATIONS

The following continuous-record surface-water discharge or stage-only stations (gaging stations) in Washington have been discontinued. Period of record for daily streamflow or stage records collected and published as daily means, or monthly means for some periods, for the period of record, expressed in water years, are shown for each station. Those stations with an asterik (*) after the station number are currently operated as a crest-stage station. Discontinued stations with less than 3 years of records are included. Information and data regarding any station may be obtained from the District Office at the address given on the back side of the title page of this report.
