

than one application for a single school if multiple projects are proposed.

*Examples:* 1. An LEA wants to receive both an emergency and a modernization grant for one school that has a failing roof and that also needs significant classroom modernization. The LEA would submit an emergency repair grant application to address the roof issues and a separate modernization application to request funds to renovate classroom space.

2. An LEA has five schools and seeks emergency grants to replace a roof and a boiler in one school and to replace windows in a second school. It should submit two applications—one for each of the two school facilities.

3. An LEA has one school that has several conditions that need to be corrected—a failing roof, aging windows that impair the efficiency of the heating system, and asbestos in floor tiles. The LEA may submit a single application for all of these conditions or separate emergency repair grant applications for each condition, if the LEA judges that they present varying degrees of urgency.
