Public Scoping Notice - Vegetation Management Activities

Dear Interested Party,

The Buffalo Ranger District is proposing to conduct vegetation management activities in the Buffalo Valley to reduce fuel loading, crown fire potential, fuel continuity, and promote aspen as a fire break. Enclosed is a public scoping notice which includes the purpose and need for action, a description of the proposed action, location (map enclosed), Forest Plan direction, preliminary issues, and also contains information on the scoping process and how to comment. It is important for us to hear from you concerning this proposed action so that we can consider your issues and concerns during the analysis.

Please review the enclosed document and send me any comments that you have that might help us in our analysis no later than April 30, 2009. Please return your comments or suggestions concerning this project to:

Buffalo Ranger District
Attention: Mack McFarland
P.O. Box 278
Moran, WY 83013

This constitutes an opportunity to comment on the project. A subsequent opportunity to comment will be provided later in the process which complies with 36 CFR215.11 and individuals who comment at that time are eligible to appeal the project. If you would like additional information, please contact Mack McFarland, Buffalo Ranger District, at (307) 543-0113.

Sincerely,

/s/ John Hagenruber
