## FLORIDA BAY BOTTOM SALINITIES

October 1996

By

Robert Halley<sup>1</sup>, Dewitt Smith, and Mark Hansen<sup>1</sup>

1995

U.S. GEOLOGICAL SURVEY, HISTORICAL, 1996  
Salinity data collected by K. Ludwig and Nancy DeWitt of the U.S. Geological Survey between 25-27 October 1988. Data provided by the National Park Service, Everglades National Park, was collected at monitoring stations between 25-27 October 1988. Data provided by South Florida Water Management District was collected by the Southeast Environmental Research Program of Florida International University on 25-27 October 1988. Salinity is calculated using Unesco algorithms from conductivity and temperature field measurements. Contours are based on interpolation and trends within the data set; developed and auto contoured using contouring software. This map has not been reviewed for conformity with U.S. Geological Survey editorial standards.
