## FLORIDA BAY SURFACE SALINITIES

December 1997

By  
Robert Halley<sup>1</sup>, Dewitt Smith, and Mark Hansen<sup>1</sup>  
1995

### SALINITY (ppt)

INTERIOR GEOLOGICAL SURVEY, RESTON, VA 1988  
Salinity data collected by K. Ludwig and R. Peterson of the U.S. Geological Survey between 5-7 December 1987; data provided by the National Park Service, Everglades National Park was collected at monitoring stations between 6-7 December 1987. Data provided by South Florida Water Management District was collected by the Southeast Environmental Research Program of Florida International University on 5-7 December 1997. Salinity is calculated using Unesco algorithms from conductivity and temperature field measurements. Contours are based on interpolation and trends within the data set, developed and smoothed using contouring software. This map has not been reviewed for conformity with U.S. Geological Survey editorial standards.
