Comments:

I co-signed for 2 loans for my daughters so that they could go to school. We were told several times and we asked several times if the interest on these loans was deferred. It was not. My girls are in way over their heads and I could lose my home if something isn't done. These companies will rip off these kids until (our future generation) has absolutely nothing left. You MUST DO SOMETHING ABOUT THIS. All they wanted was an education and a loan that they could pay back. Pleas help. Thank you.
