### ARKANSAS, Southeast

**ARZ074**

**Ashley**

<b>08</b>	1200CST								
<b>09</b>	1200CST				0	0	800K	1M	Wildfire

A large wildfire burned Sunday afternoon and evening across Central Ashley county. This fire burned nearly 6000 acres just southeast of Hamburg. Four homes were burned along with two camping trailers and 2 outbuildings. This large fire caused the closing of Highway 8 for a period of time. Another wildfire developed south of Crossett. This fire actually started in Louisiana and moved into Arkansas. This fire burned nearly 2000 acres.

These wildfires were the product of several months of extremely dry weather across the region. The combination of prolonged dry conditions and dead/dormant vegetation lead to high fire fuel across the region. As the fires began, low relative humidity values and strong southwest winds on Sunday, January 8th, promoted the rapid spreading of any fire

### LOUISIANA, Northeast

**ConcordiaParish**

**2 WSW Clayton to  
Clayton**

13	0420CST 0424CST	2	100	0	1	450K	30K	Tornado (F1)	

This tornado torn a portion of the roof off two buildings and peeled shingles off many more homes and buildings. In addition to the damaged structures, several trees were snapped and uprooted.

### MISSISSIPPI, Central

**Marion County**

**4 ENE Sandy Hook to  
5 ENE Sandy Hook**

01	1525CST 1527CST	1	50	0	0	100K	Tornado (F1)		

This weak tornado briefly touched down just northeast of Sandy Hook on Will Alexander Road and damaged one home taking a small portion of the roof off and downing several trees. An eye witness saw the funnel just above the tree tops, then shortly after it crossed Highway 43 debris began flying in the air. That was the time the funnel became a tornado and when damage occurred on Will Alexander Road.

**Carroll County**

**4 SE Black Hawk**

13	0410CST			0	0		Thunderstorm Wind (EG50)		

A few trees were blown down and power was knocked out.

**Lauderdale County**

**2 NE Collinsville to  
Meridian Nas**

13	0700CST 0715CST			0	0		Hail(0.88)		

Dime to nickel sized hail fell from just northeast of Collinsville to Meridian Naval Air Station.

**MSZ018**

**Bolivar**

22	0600CST 1900CST			0	0	300K	Flood		

Locally heavy rain, 7.75 inches measured, occurred across a large portion of Bolivar county during a 36 hour period from late Saturday night (Jan 21) to Sunday night (Jan 22). This heavy rain resulted in numerous roads being flooded Sunday afternoon with water getting into a few homes and threatening several others.

**Copiah County**

**4 WNW Crystal Spgs to  
3 NE Crystal Spgs**

30	0623CST 0633CST			0	0		Hail(0.88)		

A swath of dime to nickel sized hail fell across North-Central Copiah county around sunrise January 30th. The swath of hail mainly effected areas just north of Crystal Springs.
