#### ARKANSAS, Southeast

CHICOT COUNTY			
DERMOTT	07/01/07 16:37 CST	40K	Thunderstorm Wind (EG 60 kt)
	07/01/07 16:37 CST	0	33.52N. 91.43W

A dozen trees were blown down along with several power lines. About 10,000 people lost power in Dermott.

On the first day of July, scattered afternoon thunderstorms developed across the region with a few having just enough energy to become severe.

ASHLEY COUNTY			
6.0 E HAMBURG	07/06/07 19:15 CST	0	Flash Flood (due to Heavy Rain)
	07/06/07 21:15 CST	0	33.23N, 91.7163W

Locally heavy rain fell over saturated soils and produced localized flash flooding. A portion of Highway 8 was under 3 feet of water. The highway had to be closed for a period of time.

After a few days of locally heavy rainfall across Ashley County, another round slowly moved across the county. Two to three inches of rain fell in a couple hours atop very wet soils. This rain caused a portion of Highway 8 to flood.

ASHLEY COUNTY			
1.2 E HAMBURG	07/09/07 16:00 CST	15K	Flash Flood (due to Heavy Rain)
	07/09/07 17:00 CST	0	33.23N, 91.8W

Locally heavy rain caused some flash flooding across Ashley County. Several roads were under water around Hamburg and had to be closed for a short time.

A complex of thunderstorms developed across northern Louisiana and southern Arkansas during the afternoon and slowly moved east into the evening. Locally heavy rain occurred with some flash flooding in Ashley County.

CHICOT COUNTY			
0.6 S EUDORA	07/13/07 13:18 CST	15K	Thunderstorm Wind (EG 55 kt)
	07/13/07 13:18 CST	0	33.1116N, 91.27W

A few power lines and power poles were blown down around Eudora.

A large complex of thunderstorms developed across Southern Arkansas and Northern Louisiana and intensified as it moved east into and across portions of Central Mississippi during the afternoon hours. Damaging wind gusts downed many trees across the area as the complex of storms moved through.

#### LOUISIANA, Northeast

MOREHOUSE COUNTY			
BEEKMAN	07/13/07 12:42 CST	0	Thunderstorm Wind (EG 53 kt)
	07/13/07 12:42 CST	0	32.92N, 91.88W
Several trees were blown down ar	ound Beekman.		
	ound Beekman.		
everal trees were blown down and AST CARROLL COUNTY AKE PROVIDENCE	ound Beekman. 07/13/07 13:40 CST	25K	Thunderstorm Wind (EG 55 kt)

Several power and cable lines were blown down around Lake Providence.

A large complex of thunderstorms developed across Southern Arkansas and Northern Louisiana and intensified as it moved east into and across portions of Central Mississippi during the afternoon hours. Damaging wind gusts downed many trees across the area as the complex of storms moved through.

07/01/07 00:00 CST 2.65M Drought 07/04/07 18:00 CST

The extreme to exceptional drought, which had gripped a large portion of the region since May, finally was reduced during the first and middle portion of July. The drought lasted for only a few days before widespread rains began falling around the 3-4 of July. These rains lasted for nearly 2 weeks until the 21st. Rainfall was nearly a daily occurrence during this time frame with the entire forecast area seeing above normal rainfall for July. The area saw a range to 6 to 11 inches of rain for the month.

Due to the lingering effects of the drought, there were still some agricultural losses during the first few days of July, albeit much less than what occurred during the peak of the drought which occurred during June.

RANKIN COUNTY				
7.0 SW PELAHATCHIE	07/01/07 16:30 CST	10K	Thunderstorm Wind (EG 55 kt)	
	07/01/07 16:30 CST	0	32.2484N, 89.8846W	
Numerous trees were blown down.				
HINDS COUNTY				
2.0 NE UTICA	07/01/07 16:33 CST	0	Hail (0.75 in)	
	07/01/07 16:35 CST	0	32.1405N, 90.5959W	
SCOTT COUNTY				
4.0 SSE FOREST	07/01/07 16:55 CST	10K	Thunderstorm Wind (EG 55 kt)	
	07/01/07 16:55 CST	0	32.3166N, 89.4538W	
Several trees were blown down alo	ong with a few power lines. Damage occurre	d at the intersection o	f Highway 501 and Sherman Hill Road.	
SMITH COUNTY				
4.0 N TAYLORSVILLE	07/01/07 16:55 CST	50K	Thunderstorm Wind (EG 50 kt)	
	07/01/07 16:55 CST	0	31.8878N, 89.43W	
A few trees were blown down off H	lighway 37 and chicken house sustained roc	f damage.		
WASHINGTON COUNTY				
		•	The consideration was Miller at (EQ EQ Lat)	
ARCOLA	07/01/07 17:38 CST	0	Thunderstorm Wind (EG 50 kt)	
ARCOLA	07/01/07 17:38 CST 07/01/07 17:38 CST	0	33.27N, 90.9W	

On the first day of July, scattered afternoon thunderstorms developed across the region with a few having just enough energy to become severe.

NEWTON COUNTY			
1.0 SE DECATUR	07/07/07 09:08 CST	20K	Tornado (EF0, L: 0.80 mi , W: 30 yd)
2.0 ESE DECATUR	07/07/07 09:09 CST	0	32.4198N, 89.1079W ~ 32.4189N, 89.0884W
This tornado briefly touched down	where Highway 15 and 503 intersect. A barn	and a baseball field	sustained minor damage along with a couple of trees

blown down.

JONES COUNTY			
4.0 S SOSO	07/07/07 09:59 CST	0	Thunderstorm Wind (EG 50 kt)
	07/07/07 09:59 CST	0	31.6922N, 89.27W

Two trees were blown down off Highway 28.

A rare mid summer early morning storm complex moved across Mississippi and produced one tornado and some minor winds damage. The atmosphere this morning had very strong winds for July and this provided enough wind shear to spawn a weak tornado iust southeast of Decatur.

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
TOOMSUBA	07/20/07 16:45 CST		1K	Thunderstorm Wind (EG 52 kt)
	07/20/07 16:45 CST		0	32.42N, 88.52W
Several trees were blown down  HINDS COUNTY	across a road in Toomsuba.			
BYRAM	07/20/07 19:30 CST		0.60M	Flash Flood (due to Heavy Rain)
WEST JACKSON	07/20/07 21:30 CST		0	32.18N. 90.25W ~ 32.32N. 90.2W

As two large outflow boundaries collided across Central Hinds county, a large band of very slow moving thunderstorms developed. These storms produced 4 to 5 inches of rain with most of that, 2 to 3 inches, falling in an hour. This intense rainfall caused flash flooding across some of the area. Several roads were under water with several vehicles flooded up to the windows. Two people had to be rescued from their vehicle in Byram. Also in Byram, 5 homes were flooded by several feet of water.

Numerous slow moving thunderstorms developed across the area during the afternoon and evening of July 20th. A few of these became severe and produced damaging wind gusts. The slow nature of these storms also allowed them to produce locally heavy rainfall with a number of areas seeing 1 to 2 inches in a short amount of time.
