

Storm Data and Unusual Weather Phenomena - May 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

ARKANSAS, Southeast

CHICOT COUNTY

EUDORA	05/03/07 15:18 CST		0	Hail (0.88 in)
2.0 N EUDORA	05/03/07 15:25 CST		0	33.12N, 91.27W ~ 33.1489N, 91.27W

ASHLEY COUNTY

CROSSETT	05/03/07 16:04 CST		20K	Thunderstorm Wind (EG 57 kt)
	05/03/07 16:04 CST		0	33.13N, 91.97W

A few trees and power lines were blown down.

ASHLEY COUNTY

HAMBURG	05/03/07 16:15 CST		60K	Thunderstorm Wind (EG 55 kt)
PORTLAND	05/03/07 16:35 CST		0	33.23N, 91.82W ~ 33.23N, 91.52W

Numerous trees and a few power lines were blown down across the county.

ASHLEY COUNTY

5.0 SE FOUNTAIN HILL	05/03/07 16:18 CST		0.50M	Tornado (EF1, L: 5.00 mi , W: 400 yd)
5.0 E FOUNTAIN HILL	05/03/07 16:23 CST		0	33.2989N, 91.8188W ~ 33.35N, 91.7935W

This tornado touched down just southeast of Fountain Hill and was on the ground for 5 miles. Numerous trees, some very large, were uprooted and snapped along the path. A church had a part of its roof blown off and a couple of outbuildings were destroyed.

CHICOT COUNTY

7.0 SW EUDORA	05/03/07 16:37 CST		15K	Hail (1.75 in)
EUDORA	05/03/07 16:45 CST		0.10M	33.0484N, 91.3554W ~ 33.12N, 91.27W

CHICOT COUNTY

EUDORA	05/03/07 16:48 CST		45K	Thunderstorm Wind (EG 52 kt)
	05/03/07 16:48 CST		0	33.12N, 91.27W

Some shingles were blown off a few homes and a couple of trees were blown down around town.

CHICOT COUNTY

2.0 SE LAKE VLG	05/03/07 16:54 CST		70K	Thunderstorm Wind (EG 50 kt)
	05/03/07 16:54 CST		0	33.3096N, 91.2555W

A couple of trees were blown down in an RV park. One totally damaged an RV.

CHICOT COUNTY

2.0 N LAKE VLG	05/03/07 16:57 CST		0	Thunderstorm Wind (EG 52 kt)
	05/03/07 16:57 CST		0	33.3589N, 91.28W

Severe weather developed over the region during the day on May 3rd, peaked during the late afternoon hours and ended by early evening. The majority of the severe weather, as well as the hardest hit areas, occurred across Southeast Arkansas, Northeast Louisiana and West-Central Mississippi. A mix of hail, damaging winds and a few tornadoes occurred during the event.

ASHLEY COUNTY

1.0 N NORTH CROSSETT	05/09/07 13:00 CST		0	Hail (1.00 in)
	05/09/07 13:00 CST		0	33.1645N, 91.95W

ASHLEY COUNTY

1.0 N NORTH CROSSETT	05/09/07 13:00 CST		25K	Thunderstorm Wind (EG 53 kt)
	05/09/07 13:00 CST		0	33.1645N, 91.95W

A few trees were blown down with one tree down on a house.

Scattered afternoon showers and thunderstorms developed across the region with a few becoming severe. These storms were uncharacteristic of May, they were more like storms that develop in June or July.

Storm Data and Unusual Weather Phenomena - May 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

CHICOT COUNTY

0.9 NW MYRTLE GROVE	05/10/07 16:42 CST		0	Hail (0.75 in)
	05/10/07 16:42 CST		0	33.3092N, 91.281W

Scattered afternoon showers and thunderstorms developed across the region with a several becoming severe. These storms continued to be uncharacteristic of May, they were more like storms that develop in June or July with little movement and only lasting short periods of time.

CHICOT COUNTY

4.0 S LAKE VLG	05/15/07 11:28 CST		0	Hail (1.00 in)
	05/15/07 11:28 CST		0	33.2722N, 91.28W

ASHLEY COUNTY

9.0 SE HAMBURG	05/15/07 12:51 CST		0	Hail (0.75 in)
	05/15/07 12:51 CST		0	33.138N, 91.7101W

A storm system developed across the Southern Plains and moved eastward into the Midwest. This system pushed a decent cold front into the region which sparked a round of severe thunderstorms as the front clashed with the moist and unstable airmass across the South.

LOUISIANA, Northeast

MOREHOUSE COUNTY

0.7 S MARCARCO	05/03/07 15:30 CST		0.30M	Thunderstorm Wind (EG 70 kt)
	05/03/07 15:33 CST		0	32.71N, 91.98W

Substantial wind damage occurred from a evolving bow echo across extreme southwest Morehouse Parish, in the Westlake Community. Numerous large trees were uprooted, power lines blown down and some homes sustaining roof damage. This bow echo continued to intensify as it moved across the parish caused additional wind damage and two brief tornadoes.

MOREHOUSE COUNTY

BASTROP	05/03/07 15:45 CST		0.50M	Thunderstorm Wind (EG 75 kt)
	05/03/07 15:48 CST		0	32.78N, 91.9W

Substantial wind damage from wind gusts between 75 and 85 MPH occurred around Bastrop as a bow echo slammed through the parish. Dozens of trees and power lines were blown down along with many homes sustaining minor to major damage. Some people were trapped in their home from either downed trees or other debris blocking the way out. The International Paper Plant measured an 86 MPH wind gust. This bow echo continued to produce significant wind damage across the parish along with two brief tornadoes.

MOREHOUSE COUNTY

4.5 WNW BEEKMAN	05/03/07 15:47 CST		0.12M	Tornado (EF1, L: 2.00 mi , W: 75 yd)
3.5 NW BEEKMAN	05/03/07 15:49 CST		0	32.9449N, 91.9516W ~ 32.9558N, 91.9226W

This tornado touched down just northwest of Beekman and damaged one home where most of its roof was blown off. Additionally, numerous trees were uprooted and snapped along the 2 mile path.

MOREHOUSE COUNTY

4.0 N BASTROP	05/03/07 15:48 CST		1.50M	Thunderstorm Wind (EG 87 kt)
5.0 ENE BASTROP	05/03/07 15:50 CST	1	0	32.8378N, 91.9W ~ 32.8077N, 91.8206W

Significant straight line wind damage occurred in about a two to three mile swath north of Bastrop near the Log Cabin community. Scattered damage occurred all throughout this area, with spots of more intense damage where apparent microbursts occurred. Nearly 20 homes suffered moderate to major damage, with a few destroyed, mainly due to large trees falling on the homes. One minor injury also occurred. Maximum winds in the swath estimated to be 90 to 100 mph.

MOREHOUSE COUNTY

6.0 NE BASTROP	05/03/07 15:51 CST		80K	Tornado (EF1, L: 0.50 mi , W: 50 yd)
6.5 NE BASTROP	05/03/07 15:52 CST		0	32.8413N, 91.827W ~ 32.8464N, 91.8209W

This tornado briefly touched down in the Log Cabin Community and significantly damaged one home as it was shifted from its foundation and had roof damage. A number of trees were snapped and uprooted within the short path.

Storm Data and Unusual Weather Phenomena - May 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
MOREHOUSE COUNTY				
6.0 N BEEKMAN	05/03/07 15:55 CST		30K	Thunderstorm Wind (EG 70 kt)
	05/03/07 15:58 CST		0	33.0067N, 91.88W
Significant straight line wind damage occurred along the Morehouse Parish/Ashley County border west of Rawls. A number of trees were uprooted, and a couple of large limbs fell on a home causing minor damage. The maximum winds were estimated at 70 to 80 MPH.				
WEST CARROLL COUNTY

Storm Data and Unusual Weather Phenomena - May 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

During the month of May, the drought worsened and expanded a little as only a spattering of rain occurred across the area with the highest totals falling along and west of the Mississippi River. Actually, the area defined by severe drought (D2) only expanded by a few counties. The largest expansion was by the area defined by extreme drought (D3), which by the end of the month encompassed an area mainly along and east of Interstate 55 from Grenada to Jackson and along and north of Interstate 20 from Jackson to Meridian. Through May, the entire area within the drought experienced annual rainfall deficits between 12 and 16 inches, (15-25% of normal rainfall), with the driest conditions occurring across Eastern Mississippi.

By the end of May, crops across the state were beginning to feel the impact of the very dry conditions. At that point, some damage to crops had occurred with only small losses to yields expected. Extended drought conditions would make conditions worse with more substantial crop damage/losses if no rain occurred into the month of June.

LINCOLN COUNTY

BROOKHAVEN	05/03/07 12:27 CST	0	Hail (0.88 in)
5.0 NE BROOKHAVEN	05/03/07 12:46 CST	0	31.58N, 90.45W ~ 31.6311N, 90.39W

LINCOLN COUNTY

2.1 SW BROOKHAVEN	05/03/07 12:32 CST	15K	Thunderstorm Wind (EG 61 kt)
BROOKHAVEN	05/03/07 12:38 CST	0	31.5587N, 90.475W ~ 31.58N, 90.45W

Several trees were blown down at the intersection of Interstate 55 and Highway 84, several more trees were also blown down in and around Brookhaven. Additionally, a few power lines were blown down around town when the storm moved through.

LINCOLN COUNTY

3.1 NE FAIR OAKS SPGS	05/03/07 12:55 CST	0	Thunderstorm Wind (EG 50 kt)
	05/03/07 12:55 CST	0	31.5821N, 90.2923W

A couple of trees were blown down on the eastern side of the county near the Lawrence county line.

LAWRENCE COUNTY

TOPEKA	05/03/07 12:57 CST	1K	Thunderstorm Wind (EG 53 kt)
JAYESS	05/03/07 13:00 CST	0	31.42N, 90.18W ~ 31.37N, 90.2W

A few trees and numerous large limbs were blown down around Topeka and Jayess.

MARION COUNTY

4.4 WSW MORGANTOWN	05/03/07 13:12 CST	0	Thunderstorm Wind (EG 53 kt)
	05/03/07 13:12 CST	0	31.2959N, 89.9982W

A few trees were blown in the northwest part of the county.

SIMPSON COUNTY

1.9 ESE PINOLA	05/03/07 13:51 CST	0	Hail (0.88 in)
	05/03/07 13:51 CST	0	31.8595N, 89.9403W

SCOTT COUNTY

6.0 N FOREST	05/03/07 15:10 CST	0	Hail (0.75 in)
	05/03/07 15:10 CST	0	32.4567N, 89.48W

SCOTT COUNTY

6.0 N FOREST	05/03/07 15:10 CST	0	Thunderstorm Wind (EG 50 kt)
	05/03/07 15:10 CST	0	32.4567N, 89.48W

A few trees were blown down off Highway 35, north of Forest.

YAZOO COUNTY

3.0 E HOLLY BLUFF	05/03/07 15:12 CST	25K	Hail (1.25 in)
7.0 NE HOLLY BLUFF	05/03/07 15:35 CST	80K	32.82N, 90.6484W ~ 32.8916N, 90.6148W

A swath of quarter to half dollar sized hail fell across the northwest portions of Yazoo County, just east and northeast of Holly Bluff. This hail damaged a few vehicles as well as a large amount of crops as it slowly moved north.

NESHOBA COUNTY

SIMPSON COUNTY

7.0 W SHIVERS	05/15/07 16:27 CST		0	Hail (0.75 in)
	05/15/07 16:27 CST		0	31.8N, 90.1191W

SIMPSON COUNTY

MAGEE	05/15/07 17:20 CST		0	Thunderstorm Wind (EG 50 kt)
	05/15/07 17:20 CST		0	31.87N, 89.73W

Several trees were blown down around Magee.

A storm system developed across the Southern Plains and moved eastward into the Midwest. This system pushed a decent cold front into the region which sparked a round of severe thunderstorms as the front clashed with the moist and unstable airmass across the South.
