

Standard Terminal Automation Replacement System (STARS) GENERATOR

Version 1.0
November 14, 2007

A component of:

SIGNAL

Simulation and Integration of Ground, Network, and Air Links

Status:

Operational

Connections:

This software connects to Charter as a client. It generates multicast communications used by the STARS Gateway to drive the Operation STARS Hardware.

Overview:

This projects goal was to generate the communications necessary to drive the STARS Operational Hardware in the Training Mode. The software generates the Radar, Weather and Inter-Facility communications needed to provide simulator abilities.
