Subpart B—Renewal Applications and Procedure Thereon

§ 377.10 Requirements for, and effect of, renewal applications.

(a) *Identification of authorization covered by renewal application.* Each renewal application shall identify the authorization or authorizations to which it is intended to relate. The application shall indicate the applicant's intention to rely upon 5 U.S.C. 558(c) as implemented by this part. In case of applications for renewal of an authorization for route service, the renewal application shall specifically identify the separate routes which the applicant proposes to continue serving pursuant to the expiring authorization, pending final determination of the renewal application.

(b) *Contents of renewal application.* The application must contain all the information required by law and the Board's regulations, and meet the requirements thereof as to form. The new authorization sought need not be of the same duration as the expiring authorization. If the application relates to renewal of route authority, it must contain, as a minimum, a request for re-

newed authority to render route service between the terminals named in each separate route for which renewal is requested.

(c) *Timeliness.* The application must be filed and served in compliance with applicable law and the Board's regulations at least 60 days before the expiration date of the outstanding temporary authorization, except that:

(1) For certificates issued under section 401 of the Act with a specified expiration date, the deadline is 180 days before the expiration date;

(2) For certificates issued under section 401 of the Act that terminate by their terms upon the happening of an event that could not be foreseen, the deadline is 30 days after the time that the carrier has notice that the event will occur or has occurred;

(3) For foreign air carrier permits issued under section 402 of the Act and exemptions issued under section 416 to non-U.S. citizens, the deadline is the expiration date itself;

(4) For renewal by substantially equivalent certificate authority of fixed term route authorizations granted by exemption and for interim extension of the exemption, pursuant to § 399.18 of this chapter, the deadline is 90 days before the expiration date; and

(5) Nothing in this part supersedes a requirement for earlier filing contained in any law, Board rule or order, or temporary authorization.

(d) *Effect.* In the case of authorizations which constitute licenses with reference to activities of a continuing nature within the meaning of 5 U.S.C. 558(c), the filing of an application complying in all respects with the requirements of paragraphs (a) through (c) of this section shall extend the authorization to which it relates as then outstanding in its entirety, together with all applicable terms, conditions and limitations, until the application has been finally determined by the Board. In the case of routes granted under section 401 of the Act, the duty to render adequate service continues to attach to every point as provided in the expired authorization which is extended pursuant to this provision. The date of final determination of the application shall be the date when the final order determining the application takes effect, or
