

§ 1260.110

PRE-AWARD REQUIREMENTS

§ 1260.110 Purpose.

Sections 1260.111 through 1260.117 prescribe forms and instructions and other pre-award matters to be used in applying for NASA awards.

§ 1260.111 Pre-award policies.

(a) *Use of grants and cooperative agreements, and contracts.* In each instance, NASA shall decide on the appropriate award instrument (*i.e.* grant, cooperative agreement, or contract). The Federal Grant and Cooperative Agreement Act (31 U.S.C. 6301-08) governs the use of grants, cooperative agreements and contracts. A grant or cooperative agreement shall be used only when the principal purpose of a transaction is to accomplish a public purpose of support or stimulation authorized by Federal statute. The statutory criterion for choosing between grants and cooperative agreements is that for the latter, "substantial involvement is expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement." Contracts shall be used when the principal purpose is acquisition of property or services for the direct benefit or use of the Federal Government.

(b) *Public notice and priority setting.* NASA notifies the public of its intended funding priorities for discretionary grant programs through Broad Agency Announcements, Cooperative Agreement Notices, Agency-Wide program announcements, and other approved forms of announcements.

§ 1260.112 Forms for applying for Federal assistance.

(a) NASA shall comply with the applicable report clearance requirements of 5 CFR part 1320, "Controlling Paperwork Burdens on the Public," with regard to all forms used by the NASA in place of or as a supplement to the Standard Form 424 (SF 424) series.

(b) Applicants shall use those forms and instructions prescribed by NASA in § 1260.10.

§ 1260.113 Debarment and suspension.

NASA and recipients shall comply with the nonprocurement debarment

14 CFR Ch. V (1-1-08 Edition)

and suspension rule, 2 CFR 180 implementing Executive Orders 12549 and 12689, "Debarment and Suspension". This rule restricts contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

[72 FR 19784, Apr. 20, 2007]

§ 1260.114 Special award conditions.

If an applicant or recipient has a history of poor performance, is not financially stable, has a management system that does not meet the standards prescribed in this subpart, has not conformed to the terms and conditions of a previous award, or is not otherwise responsible, NASA may impose additional requirements as needed. Such applicant or recipient will be notified in writing as to the nature of the additional requirements, the reason why the additional requirements are being imposed, the nature of the corrective action needed, the time allowed for completing the corrective actions, and the method for requesting reconsideration of the additional requirements imposed. Any special conditions shall be promptly removed once the conditions that prompted them have been corrected.

§ 1260.115 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act (15 U.S.C. 205) declares that the metric system is the preferred measurement system for U.S. trade and commerce. The Act requires each Federal agency to establish a date or dates in consultation with the Secretary of Commerce, when the metric system of measurement will be used in the agency's procurements, grants, and other business-related activities. Metric implementation may take longer where the use of the system is initially impractical or likely to cause significant inefficiencies in the accomplishment of federally-funded activities. NASA follows the provisions of Executive Order 12770, "Metric Usage in Federal Government Programs." NASA's policy with respect to the metric measurement system is stated in NASA Policy Directive (NPD) 8010.2, Use of the
