

§ 1209.403

monetary award and terms of the award, if any, to be made for such contribution.

(2) If the contribution is made by a Government employee, the Board is also authorized to consider such contribution for award under the incentive awards program and to make an award, if any, on its own cognizance, up to the amount of \$10,000 in accordance with NASA supplements to Chapter 451 of the Federal Personnel Manual covering this subject.

[51 FR 3945, Jan. 31, 1986, as amended at 59 FR 35623, July 13, 1994]

§ 1209.403 Organizational location.

The Board is established within the Office of Policy Coordination and International Relations.

[59 FR 35623, July 13, 1994]

§ 1209.404 Membership.

(a) The Board will consist of a full-time Chairperson and at least six members appointed by the Administrator from within NASA. One of the members will be designated by the Chairperson as Vice-Chairperson. The Chairperson is responsible directly to the Administrator.

(b) The Chairperson of the Board is appointed for an unlimited period. All other Board members normally will be appointed initially for a period of 3 years. The Chairperson is authorized to extend the initial appointment of any Board member for an additional period of service. If a member resigns or is otherwise unable to participate in the Board's activities, a replacement may be appointed for the remainder of the uncompleted term and, with the approval of the Chairperson, may be appointed for a full 3-year term upon the expiration of the original term. This procedure will provide the Board with a continual infusion of new members with a variety of professional backgrounds and interests. Duties performed by the members of the Board will be in addition to their regular duties.

(c) The Chairperson is authorized to:

(1) Assemble the Board as required to discharge the duties and responsibilities of the Board;

14 CFR Ch. V (1-1-08 Edition)

(2) Establish such panels as may be considered necessary to discharge the responsibilities and perform the functions of the Board; and

(3) Issue implementing rules and procedures, and take such other actions as are necessary to perform the Board's functions.

§ 1209.405 Supporting services.

(a) The staff of the Board is established to assist the Board in discharging its functions and responsibilities. The staff will:

(1) Prepare analyses of petitions for waiver of rights to inventions for the consideration of the Board;

(2) Prepare evaluation of proposed awards;

(3) Document Board actions; and

(4) Perform such other functions as may be required.

(b) A full-time director of the staff will serve as a nonvoting member of the Board, and will direct the activities of the staff of the Board.

(c) The director of the staff of the Board will report to the Chairperson of the Board.

PART 1210—DEVELOPMENT WORK FOR INDUSTRY IN NASA WIND TUNNELS

Sec.

1210.1 Introduction.

1210.2 General classes of work.

1210.3 Priorities and schedules.

1210.4 Company projects.

1210.5 Government projects.

1210.6 Test preparation and conduct.

AUTHORITY: 50 U.S.C. 511-515, 42 U.S.C. 2473(c)(5) and (6).

SOURCE: 51 FR 34083, Sept. 25, 1986, unless otherwise noted.

§ 1210.1 Introduction.

(a) *Authority.* The regulations, as they apply to the Unitary Wind Tunnel Plan facilities, are promulgated under authority of the Unitary Wind Tunnel Plan Act of 1949, as amended, codified at 50 U.S.C. 511-515. This statute states "The facilities authorized * * * shall be operated and staffed by the National Aeronautics and Space Administration but shall be available primarily industry for testing experimental models in connection with the development of

National Aeronautics and Space Admin.

§ 1210.3

aircraft and missiles. Such tests shall be scheduled and conducted in accordance with industry's requirements, and allocation of laboratory time shall be made in accordance with the public interest, with proper emphasis upon the requirements of each military service and due consideration of civilian needs."

(b) *Unitary wind tunnel plan facilities.* The unitary wind tunnel plan facilities are the Ames Research Center 11- by 11-foot wind tunnel, 9- by 7-foot wind tunnel, and 8- by 7-foot wind tunnel; the Langley Research Center 4- by 4-foot high Mach number test section and the 4- by 4-foot low Mach number test section; and the Lewis Research Center 10- by 10-foot wind tunnel. These wind tunnels are operated by NASA for industry, NASA, the Department of Defense, and other Government agency projects.

(c) *National aeronautical facilities.* The national aeronautical facilities include the National Transonic Facility (NTF) at Langley Research Center and the National Full-Scale Aerodynamic Complex, consisting of the 40- by 80-foot and the 80- by 120-foot wind tunnels and related support facilities at Ames Research Center. These facilities are operated by NASA for industry, NASA, the Department of Defense, and other Government agency projects.

(d) *All other wind tunnels.* All other NASA wind tunnels will be used primarily for NASA research. However, all of these wind tunnels may be used for industry work when it is in the public interest either in joint programs with NASA or on a fee basis.

(e) *NASA policy.* All the projects to be performed in any of the NASA wind tunnels must be appropriate to the facility.

§ 1210.2 General classes of work.

(a) *Company projects.* Includes work for industry on:

(1) Projects which are neither under contract nor supported by a letter of intent from a Government agency; and

(2) Company desired tests which are related to a project which is either under contract with or supported by a letter of intent from a Government agency, but are beyond the scope of the

tests requested by the Government agency.

(3) A fee will be charged for company projects.

(b) *Government projects.* Includes work for industry on projects which are either under contract with or supported by a letter of intent from a Government agency. The work must be requested by the Government agency. No fee will be charged for Government projects.

(c) *United States/foreign industry consortium projects.* This involves U.S. companies, which have formed a consortium or any other type of association with foreign companies, that desire tests on aerospace projects of joint or foreign interest. An application for work for such a consortium shall disclose the foreign interest in or anticipated foreign benefit from tests to be conducted and shall first be reviewed by the Director, International Affairs Division, for consistency with current U.S. foreign policy and for compatibility with section 102 of the National Aeronautics and Space Act of 1958, as amended, prior to a final decision being reached on the application. A fee will be charged for these consortium projects unless, in these review procedures, it is determined that Government agency cooperative sponsorship warrants a non-fee arrangement.

(d) *Foreign company projects.* Foreign company requests for wind tunnel use that are not related to U.S. Government or U.S. industry interests or programs will generally not be granted and will in no event be granted prior to a review, as required in paragraph (c) of this section, by the Director, International Affairs Division.

§ 1210.3 Priorities and schedules.

(a) *Priorities.* Unitary wind tunnels shall be available primarily to industry for development work. However, allocations of wind tunnel time shall be in accordance with the public interests, with due consideration to the requirements of the military services, civilian needs, and NASA research. Research work shall have priority in all other NASA facilities.

(b) *Schedules.* Schedules showing the allocation of testing time for Government projects and for company
