(a) General. The Recipient has applied, under the provisions of Section 431 of Public Law 105-276 (Section 431), for indemnification by the Government against certain third party damage claims that might arise under the Agreement. Under Section 431, a necessary prerequisite to, and consideration for, the Government's granting such indemnification is the Recipient's obtaining insurance against an initial increment of such damages arising from certain third party claims. This provision sets forth the requirements for this insurance prerequisite to a Government grant of indemnification.

(b) *Definitions.* The definitions at 14 CFR 1266, Cross-Waivers and Indemnification, apply to this provision.

(c) *Insurance.* The Recipient shall obtain, as part of its financial contribution, insurance that meets the following parameters:

(1) The insurance policy or policies shall insure against damages incurred by third parties arising from covered activities;

(2) The amount of insurance applicable to each launch shall be [Amount to be inserted by the contracting officer]. The Government may subsequently increase the amount of insurance the Recipient is required to maintain to qualify for indemnification, for one or more launches, and the Recipient shall pay the additional cost of such increases from its financial contribution; and

(3) The insurance policy or policies shall name the parties and their related entities, and the employees of the parties and their related entities, as named insureds.

Nothing in this provision precludes the Recipient from obtaining, at no cost to the Government, such other insurance as the Recipient determines advisable to protect its business interests.

(d) *Proof of Insurance.* The Recipient shall provide proof of insurance that meets the parameters in paragraph (c) of this provision and that is acceptable to the Agreement Officer:

(1) Within 30/60 days after the execution of the modification adding this provision to the Agreement;

(3) Within 7 days after a request by the Agreement Officer.
