SUBJECT: **Security Accreditation Decision for TRCA Infrastructure.**

Authority to Operate

After reviewing the results of the security certification of the TRCA Infrastructure, I have determined that the risk to agency operations, agency assets, or individuals is fully acceptable. Accordingly, I am issuing a full authorization to operate in the existing operating environment. This security authorization is without any significant restrictions or limitations, and is my formal declaration that adequate security is present.

The security authorization of TRCA Infrastructure will remain in effect for three years, or until significant change is made to the security controls warranting another review.

Accreditation Statement

As Authorizing Official for TRCA Infrastructure, I authorize this system to operate.
