

knowing the same to contain any false, fictitious or fraudulent statement or entry, may be subject to criminal penalties under 18 U.S.C. 1001.

(h) Any party adversely affected by a decision of the authorized officer made pursuant to the provisions of this subpart shall have a right of appeal pursuant to part 4 of this title.

[42 FR 5200, Jan. 27, 1977, as amended at 44 FR 9723, Feb. 14, 1979; 47 FR 56307, Dec. 15, 1982; 53 FR 48882, Dec. 2, 1988; 55 FR 17754, Apr. 27, 1990; 58 FR 38201, July 15, 1993]

## PART 3840—NATURE AND CLASSES OF MINING CLAIMS

### Subpart 3840—Types of Claims

Sec.

3840.1 Classes of mining claims.

#### Subpart 3841—Lode Claims

3841.1 Lodes located previous to May 10, 1872.

3841.2 Lodes must not have been adversely claimed.

3841.3 Discovery.

3841.3-1 Discovery required before location.

3841.3-2 Discovery work.

3841.4 Describing locations.

3841.4-1 Length of lode claims.

3841.4-2 Width of lode claims.

3841.4-3 Extent of surface ground.

3841.4-4 Defining of locations.

3841.4-5 Location notice; monumenting.

3841.4-6 Recording of location notice.

#### Subpart 3842—Placer Claims

3842.1 Placer claims: General.

3842.1-1 Discovery.

3842.1-2 Maximum allowable acreage.

3842.1-3 Locations authorized in 10-acre units.

3842.1-4 Manner of describing 10-acre units.

3842.1-5 Conformity of placer claims to the public land surveys.

3842.2 Building-stone placers.

3842.3 Saline placers.

3842.4 Petroleum placers.

#### Subpart 3843—Tunnel Sites

3843.1 Possessory right of tunnel proprietor.

3843.2 Location of tunnel claims.

3843.3 Recording of notices.

#### Subpart 3844—Millsites

3844.0-3 Authority.

3844.1 Required use.

### Subpart 3840—Types of Claims

#### § 3840.1 Classes of mining claims.

Mining claims are of two distinct classes: lode claims and placers.

[35 FR 9750, June 13, 1970]

### Subpart 3841—Lode Claims

SOURCE: 35 FR 9750, June 13, 1970, unless otherwise noted.

#### § 3841.1 Lodes located previous to May 10, 1872.

The status of lode claims located or patented previous to May 10, 1872, is not changed with regard to their extent along the lode or width of surface; but the claim is enlarged by 2322 and 2328, R.S. (30 U.S.C. 26, 33), by investing the locator, his heirs or assigns, with the right to follow, upon the conditions stated therein, all veins, lodes, or ledges, the top or apex of which lies inside of the surface lines of his claim.

#### § 3841.2 Lodes must not have been adversely claimed.

It is to be distinctly understood that the law limits the possessory right to veins, lodes, or ledges, other than the one named in the original location, to such as were not adversely claimed on May 10, 1872, and that where such other vein or ledge was so adversely claimed at that date the right of the party so adversely claiming is in no way impaired by the act of that date.

#### § 3841.3 Discovery.

##### § 3841.3-1 Discovery required before location.

No lode claim shall be located until after the discovery of a vein or lode within the limits of the claim, the object of which provision is evidently to prevent the appropriation of presumed mineral ground for speculative purposes, to the exclusion of bona fide prospectors, before sufficient work has been done to determine whether a vein or lode really exists.

##### § 3841.3-2 Discovery work.

The claimant should, therefore, prior to locating his claim, unless the vein can be traced upon the surface, sink a

## § 3841.4-5

shaft or run a tunnel or drift to a sufficient depth therein to discover and develop a mineral-bearing vein, lode, or crevice; should determine, if possible, the general course of such vein in either direction from the point of discovery, by which direction he will be governed in marking the boundaries of his claim on the surface.

### § 3841.4 Describing locations.

#### § 3841.4-1 Length of lode claims.

From and after May 10, 1872, any person who is a citizen of the United States, or who has declared his intention to become a citizen, may locate, record, and hold a mining claim of 1,500 linear feet along the course of any mineral vein or lode subject to location; or an association of persons, severally qualified as above, may make joint location of such claim of 1,500 feet, but in no event can a location of a vein or lode made after May 10, 1872, exceed 1,500 feet along the course thereof, whatever may be the number of persons composing the association.

#### § 3841.4-2 Width of lode claims.

No lode located after May 10, 1872, can exceed a parallelogram 1,500 feet in length by 600 feet in width, but whether surface ground of that width can be taken depends upon the local regulations or State or Territorial laws in force in the several mining districts. No such local regulations or State or Territorial laws shall limit a vein or lode claim to less than 1,500 feet along the course thereof, whether the location is made by one or more persons, nor can surface rights be limited to less than 50 feet in width unless adverse claims existing on May 10, 1872, render such lateral limitation necessary.

#### § 3841.4-3 Extent of surface ground.

With regard to the extent of surface ground adjoining a vein or lode, and claimed for the convenient working thereof, the Act of May 10, 1872, provides that the lateral extent of locations of veins or lodes made after said date shall in no case exceed 300 feet on each side of the middle of the vein at the surface, and that no such surface rights shall be limited by any mining

regulations to less than 25 feet on each side of the middle of the vein at the surface, except where adverse rights existing on May 10, 1872, may render such limitation necessary; the end lines of such claims to be in all cases parallel to each other. Said lateral measurements cannot extend beyond 300 feet on either side of the middle of the vein at the surface, or such distance as is allowed by local laws. For example: 400 feet cannot be taken on one side and 200 feet on the other. If, however, 300 feet on each side are allowed, and by reason of prior claims but 100 feet can be taken on one side, the locator will not be restricted to less than 300 feet on the other side; and when the locator does not determine by exploration where the middle of the vein at the surface is, his discovery shaft must be assumed to mark such point.

#### § 3841.4-4 Defining of locations.

Section 5 of the Act of May 10, 1872, now section 2324, Revised Statutes (30 U.S.C. 28), requires that "the location must be distinctly marked on the ground so that its boundaries can be readily traced." Locators can not exercise too much care in defining their locations at the outset, inasmuch as section 5 of the Act of May 10, 1872 (17 Stat. 92; 30 U.S.C. 28) requires that all records of mining locations made subsequent to the date of said Act shall contain the name or names of the locators, the date of the location, and such a description of the claim or claims located, by reference to some natural object or permanent monument, as will identify the claim.

#### § 3841.4-5 Location notice; monumenting.

(a) The location notice should give the course and distance as nearly as practicable from the discovery shaft on the claim to some permanent, wellknown points or objects, such, for instance, as stone monuments, blazed trees, the confluence of streams, point of intersection of well-known gulches, ravines, or roads, prominent buttes, hills, etc., which may be in the immediate vicinity, and which will serve to perpetuate and fix the locus of the
