Other projects with States	\$959,361
Section 6	\$718,140
<b>Total</b>	<b>\$80,629,076</b>

# Program Emphases

- **Habitat Restoration/Conservation**
- **Data collection**
  - **Fishery Independent Data**
  - **Fishery Dependent Data**
- **Fishery monitoring**
- **Research in support of fisheries management**
  - **Stock assessments**
  - **Habitat studies**
  - **Ecosystem studies/modeling**
- **Law Enforcement**

# Need- National Review

- **To evaluate, on a Regional basis, fishery science and management activities:**
  - **what needs are being met;**
  - **what needs are not being met;**
  - **where duplication is occurring; and**
  - **where priorities need to be reviewed.**

# Initiate Review Process

- **Regions and Centers begin internal evaluations**
- **Ask States to commit to participate in reviews and evaluations within their Regions**
- **Regional reviews should:**
  - **include all resources (e.g., grant programs) available to address fishery data, research, and management needs;**
  - **focus overall on ecosystem based management; and**
  - **Link projects to appropriate programs**
