Federal Operating Permits Program

AGENCY: Environmental Protection Agency (EPA)

ACTION: Notice.

SUMMARY: Elsewhere in today's Federal Register, EPA published amendments to its final rule for the Clean Air Act (CAA) Federal Operating Permits Program which require that covered sources in Indian country submit permit applications to EPA no later than 1 year from the effective date of the rulemaking. The final rule becomes effective on [insert date that is 30 days following publication of this notice]. The purpose of this informational notice is to provide additional notice to stationary air sources that are located in Indian country or in areas for which EPA believes the Indian country status is in question that they should consult the final rule (which is being adopted into 40 CFR part 71) to determine whether they are subject to it. Also, this informational notice informs stationary sources of the appropriate contact persons in EPA's Regional Offices who can provide additional information about submitting permit applications.
