PURPOSE OF THE SURVEY

This survey collects data on fall enrollment, completions, enrollment in occupationally specific programs, finance, staff, and libraries. These data allow the National Center for Education Statistics to describe the size of one of the Nation's largest enterprises — postsecondary education — in terms of students enrolled, degrees and other awards earned, dollars expended, and staff employed.

USES OF DATA

The National Center for Education Statistics (NCES) uses these data to meet its Congressional mandate to report on the condition of education in the Nation. These data are used to update the Digest of Education Statistics and the Condition of Education, two annual reports produced by NCES. The Department of Education uses these data for policy analysis and program evaluation; the Bureau of Economic Analysis uses the finance data to compute GNP; and the Bureau of Labor Statistics uses completions data in its manpower analysis reported in the Occupational Outlook Handbook. Survey respondents can use the published results to compare their operations with national averages to spot trends in program offerings, enrollments, staffing patterns, and key statistics.

CERTIFICATION – I certify that the information given in this report is correct and true to the best of my knowledge and was prepared in accordance with accompanying instructions. Willfully false statements on this report are punishable by law, U.S. Code, Title 18, Section 1001.

COMPLIANCE REQUIREMENTS

The Office for Civil Rights (OCR) and the National Center for Education Statistics (NCES), with the approval of the Office of Management and Budget, cooperate in the collection of racial/ethnic information from all postsecondary institutions for the enrollment and completions sections of this survey. Section 100.6(b) of the regulations implementing Title VI of the Civil Rights Act of 1964, set forth below, and similar provisions of the Title VI regulations of other Federal agencies, authorize collection of this information.

100.6(b) Compliance Reports – Each recipient shall keep records and submit to the responsible Department official or his designee timely, complete and accurate compliance reports at such times and in such form and containing such information as the responsible Department official or his designee may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. For example, recipients should have available for the Department racial and ethnic data showing the extent to which members of minority groups are beneficiaries of and participants in federally-assisted programs. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations under this part.

Public reporting burden for this collection of information is estimated to average 2.0 hours per response but may range from 30 minutes to 5.0 hours depending on whether the information is readily accessible to machine readable files. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, Information Management and Compliance Division, Washington, DC 20202-4651, and to the Office of Management and Budget, Paperwork Reduction Project 1850-0582, Washington, DC 20503.

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

GENERAL INSTRUCTIONS — CN

Respond to each item on this report in the space provided; if a section does not apply to your institution, note "not applicable." The Glossary provides definitions of terms used in this report.

Part A — FALL ENROLLMENT SUMMARY

Enrollment should be reported as of the institution's official fall reporting date or October 15, 1994.

Students to be included — Report all students enrolled in courses creditable toward a degree, diploma, certificate, or other formal award, separating full-time and part-time students. (First-time students are those attending any institution for the first time; that is, the student enters the institution with NO CREDIT toward a degree or award).

Include students enrolled in courses that are part of a vocational or occupational program, INCLUDING those in off-campus centers.

Include high school students enrolled in postsecondary education courses creditable toward the completion of a program.

Students to be excluded — Do NOT include —

- Students enrolled exclusively in courses not creditable toward a formal award or completion of a vocational program;
- Students exclusively auditing classes;
- Students in any branch campus located in a foreign country; or
- Students earning continuing education units (CEU's).

Enrollment status — Once you have determined who to include in your report, identify the students as either "full-time" or "part-time" and as "first-time" or "all other". These categories correspond to the lines of the survey form on which the data are reported. Follow the instructions for reporting students by racial/ethnic category.

Part B — POSTSECONDARY COMPLETIONS

Report only those awards/degrees which were actually conferred between July 1, 1993 and June 30, 1994. Awards/degrees earned but not yet conferred during this time period should be reported in next year's survey. Part B applies to all award levels ranging from postsecondary certificates of less than one year to doctorate level degrees. Include completions in academic as well as vocational or occupational programs.

Preprinted programs — The survey form lists those programs and their appropriate award levels that were reported by your institution last year. The award levels and their codes are noted at the top of Part B. Please **verify** these levels before completing this form. Note that a program and its 6-digit CIP code may be listed more than once if the program is offered at different award levels. If your institution no longer offers one or more of these programs, delete them from the list by drawing a line through the program title. For the remaining programs, follow the directions for reporting completions by racial/ethnic category.

Blank lines — The survey form includes a blank section so that you may report completions in programs that were not preprinted for you, including new programs. Refer to the 1990 version of the **Classification of Instructional Programs (CIP)** booklet to determine the appropriate program title that most closely matches your program and enter the CIP title and its 6-digit code in the space provided. Choose one of the

10 levels of awards listed at the top of the page, and enter the correct code for each newly listed program in the Level of Award column following the CIP code or program title. Enter the completions data for the newly listed programs.

Part C — FALL ENROLLMENT IN OCCUPATIONALLY SPECIFIC PROGRAMS (Collected in odd-numbered years only)

Enrollment should be reported as of the institution's official fall reporting date or October 15, 1995.

Applicability of report — This enrollment section is requested only from institutions that offer occupationally specific programs below the bachelor's level which require less than 4 years to complete. Occupationally specific programs are listed in chapter 2 of the enclosed 1990 version of the **Classification of Instructional Programs (CIP)** booklet. Refer to the CIP booklet to determine whether your institution offers any of the applicable programs. If Part B data for any of these programs are reported below the bachelor's level, then enrollment for that program should be reported here.

Students to be included — Report only those students enrolled in programs below the baccalaureate level that are specifically designed to provide occupational preparation. Students in a program are either — **(1)** those who have formally declared their program intent; or **(2)** those who have completed at least 25% of a program's requirements. The program may result in a degree, certificate, or other formal award granted by the institution.

Include high school students in these programs if they are working toward the completion of a program.

Report TOTAL enrollment in each program; combine full- and part-time headcounts.

Program enrollment — Part C lists those occupationally specific programs known to exist at your institution. Please complete Part C of the survey in the same manner as Part B, deleting programs that are no longer offered at your institution and adding new ones in the blank area. Refer to the CIP booklet as needed to code new programs or to verify those that already exist. Follow the instructions for reporting students by racial/ethnic category.

Sum the enrollment reported for each program by column and enter the totals on line 99.0000.

REPORTING STUDENTS BY RACIAL/ETHNIC CATEGORY AND SEX — PARTS A, B, AND C

This information is being gathered in compliance with Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972 (see Compliance Requirements, page 2), and Section 421(a)(1) of the Carl D. Perkins Vocational Education Act.

Method of collection — The manner of collecting racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data, which may be replicated by others when the same documented system is utilized. One acceptable method is a properly controlled system of post-enrollment self-identification by students. If a self-identification method is utilized, a verification procedure to ascertain the completeness and accuracy of student submissions should be employed.

GENERAL INSTRUCTIONS – CN — Continued

REPORTING STUDENTS BY RACIAL/ETHNIC CATEGORY AND SEX – PARTS A, B, AND C — Continued

Assignment to categories — For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic category. Racial/ethnic designations are requested only for United States citizens and for **resident aliens** (persons who have been lawfully admitted for permanent residence and who hold alien registration receipt cards (Form I-551/155)).

Racial/ethnic descriptions — Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. The categories are —

- **Black, non-Hispanic** — A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).
- **American Indian or Alaskan Native** — A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- **Asian or Pacific Islander** — A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippine Islands, American Samoa, India, and Vietnam.
- **Hispanic** — A person of Mexican, Puerto Rican, Cuban, Central, or South American, or other Spanish culture or origin, regardless of race.
- **White, non-Hispanic** — A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

Other descriptive categories

- **Nonresident alien** — A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. **Resident aliens**, who are not citizens or nationals of the United States and who have been lawfully admitted for permanent residence (and who hold alien registration receipt cards — Form I-551/155), are to be reported in the appropriate racial/ethnic categories along with United States citizens.

Note — Nonresident aliens are to be reported separately, on the lines provided, rather than in any of the five racial/ethnic categories described above.

- **Race/ethnicity unknown** — This category is used ONLY if the student did not select a racial/ethnic designation, AND the postsecondary institution finds it impossible to place the student in one of the aforementioned racial/ethnic categories during established enrollment procedures or in any post-enrollment identification or verification process.

In columns 15 and 16, report the grand total of all students or award recipients regardless of race/ethnicity or citizenship.

Part D — FINANCE

All data should be reported in WHOLE DOLLARS ONLY; omit cents. For any item on the report where exact data do not exist, give estimates.

Report finances for the most recent fiscal year that ended prior to October 1, 1994; indicate the beginning and the ending time period (month and year — using 2 digits for each).

CURRENT FUNDS REVENUES BY SOURCE FOR FISCAL YEAR 1994

Line 1 – Tuition and fees — Report all tuition and fees (including student activity fees) assessed against students for education purposes. Include tuition and fee remissions or exemptions even though there is no intention of collecting them from the student. (Pell Grants, formerly BEOG's, are included on lines 1 and 2 as revenue since they are considered a federal source of revenue.)

Line 2 – Other sources — Include all other gifts, grants, and other revenues that are available to meet current operating expenses. Include Pell Grants (formerly BEOG's) on line 2.

CURRENT FUNDS EXPENDITURES BY FUNCTION FOR FISCAL YEAR 1994

Line 4 – Instruction — Report all expenditures for instructional activities at the institution. Examples include faculty compensation and other direct costs attributable to instruction.

Line 5 – Scholarships and fellowships — Report all expenditures given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, for either credit or noncredit. Aid to students in the form of tuition or fee remissions should be included. (Exclude those remissions that are granted because of faculty or staff status.) Include Pell Grants on line 5 and also where the institution deems appropriate (i.e., for instruction or another expenditure). Please show the amount of Pell Grants included on line 5 separately on line 5a to account for "double counting" of Pell Grant monies. Do NOT report college work-study expenses here; report these expenses in line 6.

Line 6 – All other expenditures — Report all other expenditures made by the institution for activities related to the operation of the institution.

Part E — STAFF (Collected in odd-numbered years only)

All persons on the payroll of the institution as of October 1, 1995 are to be included in this part.

Status of employees — Report in columns 1–4 men and women by their full-time/part-time status as of October 1, 1995. This status is to be determined by the institution.

Primary occupational activity — Each employee must be accounted for in one AND ONLY ONE of the occupational activity categories, lines 1–5. If an employee is engaged in two or more separate activities, the employee should be reported according to their primary activity. The institution should determine what constitutes the primary activity.

Special instructions — Employees at off-campus locations associated with the campus covered by this report should also be reported.

Hospitals, medical centers, and other institutions which offer postsecondary education programs as only one of their primary missions should ONLY report staff who work either full-time or part-time in the postsecondary education division or component of the institution. **Note** — If an employee works full-time for the institution but only part-time in the postsecondary education division or component — for purposes of this survey, that employee should be reported as part-time in their primary occupational activity in the postsecondary education division or component.

Part F — LIBRARIES (Collected in even-numbered years only)

If your institution has its own library, please complete the information requested using the following guidelines:

GENERAL INSTRUCTIONS – CN — Continued

Period of report — Report data for your libraries for the most recent fiscal year that ended prior to October 1, 1994. The particular 12-month period should be the same used for reporting Part D — Finance data.

Total full-time-equivalent (FTE) employees — Report the sum of the number of full-time employees plus the full-time-equivalent of the part-time employees. To compute full-time-equivalents of part-time employees, take the number of hours worked by all part-time employees and divide it by the number of hours CONSIDERED BY THE REPORTING LIBRARY TO BE A FULL-TIME WORK WEEK (e.g., 60 hours per week of part-time work divided by 40 hours per full-time week equals 1.50 FTE). Include librarians, other paid staff, contributed services staff, and student assistants (from all funding sources). Exclude maintenance and custodial staff. Report data to two decimal places.

Total operating expenditures — Report the funds expended from the LIBRARY BUDGET in fiscal year 1994 regardless of when the funds may have been received from Federal, State, or other sources. All expenditures should be reported in whole dollars. Include salaries and wages, print

materials, current serial subscriptions, microforms, machine readable materials, audiovisual materials, other collection expenditures, preservation, furniture and equipment, computer hardware, postage, telecommunications, on-line database searches, contracted computer services, and all other operating expenditures. Exclude salaries and wages for contributed services and maintenance and custodial staff, microcomputer software used only by library staff, and expenditures for capital outlays.

Volumes held at end of fiscal year — Report the number of volumes of any printed, typewritten, handwritten, mimeographed, or processed work contained in one binding or portfolio, hardbound or paperbound, which has been catalogued, classified, or otherwise made ready for use.

Circulation transactions — Report the number of items lent from the general collection and from the reserve collection for use usually (although not always) outside the library. These activities include initial charges, either manually or electronically, and also renewals, each of which is reported as a circulation transaction.
