

§ 1.4

12 CFR Ch. I (1-1-08 Edition)

national bank shall take account of securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings. No percentage of capital and surplus limit applies to small business related securities rated investment grade in the highest two investment grade rating categories.

(f) *Type V securities.* A national bank may purchase and sell Type V securities for its own account provided that the aggregate par value of Type V securities issued by any one issuer held by the bank does not exceed 25 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type V securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(g) *Securitization.* A national bank may securitize and sell assets that it holds, as a part of its banking business. The amount of securitized loans and obligations that a bank may sell is not limited to a specified percentage of the bank's capital and surplus.

(h) *Investment company shares—(1) General.* A national bank may purchase and sell for its own account investment company shares provided that:

(i) The portfolio of the investment company consists exclusively of assets that the national bank may purchase and sell for its own account under this part; and

(ii) The bank's holdings of investment company shares do not exceed the limitations in § 1.4(e).

(2) *Other issuers.* The OCC may determine that a national bank may invest in an entity that is exempt from registration as an investment company under section 3(c)(1) of the Investment Company Act of 1940, provided that the portfolio of the entity consists exclusively of assets that a national bank may purchase and sell for its own account under this part.

(i) *Securities held based on estimates of obligor's performance.* (1) Notwithstanding §§ 1.2(d) and (e), a national bank may treat a debt security as an investment security for purposes of this part if the bank concludes, on the basis of estimates that the bank reasonably believes are reliable, that the obligor will be able to satisfy its obli-

gations under that security, and the bank believes that the security may be sold with reasonable promptness at a price that corresponds reasonably to its fair value.

(2) The aggregate par value of securities treated as investment securities under paragraph (i)(1) of this section may not exceed 5 percent of the bank's capital and surplus.

[61 FR 63982, Dec. 2, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§ 1.4 Calculation of limits.

(a) *Calculation date.* For purposes of determining compliance with 12 U.S.C. 24 (Seventh) and this part, a bank shall determine its investment limitations as of the most recent of the following dates:

(1) The last day of the preceding calendar quarter; or

(2) The date on which there is a change in the bank's capital category for purposes of 12 U.S.C. 1831o and 12 CFR 6.3.

(b) *Effective date.* (1) A bank's investment limit calculated in accordance with paragraph (a)(1) of this section will be effective on the earlier of the following dates:

(i) The date on which the bank's Consolidated Report of Condition and Income (Call Report) is submitted; or

(ii) The date on which the bank's Consolidated Report of Condition and Income is required to be submitted.

(2) A bank's investment limit calculated in accordance with paragraph (a)(2) of this section will be effective on the date that the limit is to be calculated.

(c) *Authority of OCC to require more frequent calculations.* If the OCC determines for safety and soundness reasons that a bank should calculate its investment limits more frequently than required by paragraph (a) of this section, the OCC may provide written notice to the bank directing the bank to calculate its investment limitations at a more frequent interval. The bank shall thereafter calculate its investment limits at that interval until further notice.

(d) *Calculation of Type III and Type V securities holdings—(1) General.* In calculating the amount of its investment in Type III or Type V securities issued by

Comptroller of the Currency, Treasury

§ 1.7

any one obligor, a bank shall aggregate:

(i) Obligations issued by obligors that are related directly or indirectly through common control; and

(ii) Securities that are credit enhanced by the same entity.

(2) *Aggregation by type.* The aggregation requirement in paragraph (d)(1) of this section applies separately to the Type III and Type V securities held by a bank.

(e) *Limit on investment company holdings*—(1) *General.* In calculating the amount of its investment in investment company shares under this part, a bank shall use reasonable efforts to calculate and combine its pro rata share of a particular security in the portfolio of each investment company with the bank's direct holdings of that security. The bank's direct holdings of the particular security and the bank's pro rata interest in the same security in the investment company's portfolio may not, in the aggregate, exceed the investment limitation that would apply to that security.

(2) *Alternate limit for diversified investment companies.* A national bank may elect not to combine its pro rata interest in a particular security in an investment company with the bank's direct holdings of that security if:

(i) The investment company's holdings of the securities of any one issuer do not exceed 5 percent of its total portfolio; and

(ii) The bank's total holdings of the investment company's shares do not exceed the most stringent investment limitation that would apply to any of the securities in the company's portfolio if those securities were purchased directly by the bank.

§ 1.5 Safe and sound banking practices; credit information required.

(a) A national bank shall adhere to safe and sound banking practices and the specific requirements of this part in conducting the activities described in § 1.3. The bank shall consider, as appropriate, the interest rate, credit, liquidity, price, foreign exchange, transaction, compliance, strategic, and reputation risks presented by a proposed activity, and the particular activities

undertaken by the bank must be appropriate for that bank.

(b) In conducting these activities, the bank shall determine that there is adequate evidence that an obligor possesses resources sufficient to provide for all required payments on its obligations, or, in the case of securities deemed to be investment securities on the basis of reliable estimates of an obligor's performance, that the bank reasonably believes that the obligor will be able to satisfy the obligation.

(c) Each bank shall maintain records available for examination purposes adequate to demonstrate that it meets the requirements of this part. The bank may store the information in any manner that can be readily retrieved and reproduced in a readable form.

§ 1.6 Convertible securities.

A national bank may not purchase securities convertible into stock at the option of the issuer.

§ 1.7 Securities held in satisfaction of debts previously contracted; holding period; disposal; accounting treatment; non-speculative purpose.

(a) *Securities held in satisfaction of debts previously contracted.* The restrictions and limitations of this part, other than those set forth in paragraphs (b), (c), and (d) of this section, do not apply to securities acquired:

(1) Through foreclosure on collateral;

(2) In good faith by way of compromise of a doubtful claim; or

(3) To avoid loss in connection with a debt previously contracted.

(b) *Holding period.* A national bank holding securities pursuant to paragraph (a) of this section may do so for a period not to exceed five years from the date that ownership of the securities was originally transferred to the bank. The OCC may extend the holding period for up to an additional five years if a bank provides a clearly convincing demonstration as to why an additional holding period is needed.

(c) *Accounting treatment.* A bank shall account for securities held pursuant to paragraph (a) of this section in accordance with Generally Accepted Accounting Principles.

(d) *Non-speculative purpose.* A bank may not hold securities pursuant to
