

First Quarter 2006

Exide submitted the additional information to complete the Risk Assessment Report. The EPA Technical Review Workgroup (TRW), which consists of EPA national experts, is currently reviewing the supplementary information.

Second Quarter 2006-Fourth Quarter 2006

EPA Region III is evaluating the recommendations submitted by the Technical Review Workgroup regarding the Risk Assessment Report. EPA Regional Office will announce its conclusion and decision on the risk assessment in 2007. Following the announcement, EPA will schedule a public meeting to present and discuss the results of the risk assessment and the ensuing residential cleanups.
