

Protect Your Business and Your Customers Do NOT Buy or Sell Illegal Pesticides!

Pesticides are products that kill things like: WEEDS, RATS, ANTS, ROACHES & MILDEW.

Selling an unregistered pesticide is against the law. Even if you do not know that they are unregistered, selling them can: get you **arrested**, cost you **thousands of \$\$ in fines**, or even **put you in jail**.

What you should do:

- If a wholesaler or anyone else has sold you pesticides that do not have an **EPA Registration Number**, like the sample label, call this telephone number: 1-800-223-0425.
- If you think you have illegal pesticides, remove them from your shelves, but do not throw them away. For proper disposal, call this telephone number: 1-800-223-0425.
- If you sell an illegal pesticide that poisons a human or a pet -- *even if you did not know it was an illegal product* -- you can be arrested, fined and held responsible for the damages.
- EPA will enforce the law against whomever sold illegal pesticides to you, but if you sell them to someone else, then you will be breaking the law, too.
- If you want any information or help of any kind about this subject, call this telephone number: 1-800-858-7378 or go on-line at: www.epa.gov/pesticides/health/illegalproducts
