§ 48.4161(a) [Reserved]

§ 48.4161(a)-1 Imposition and rate of tax; fishing equipment.

(a) *Imposition of tax.* Section 4161(a) imposes a tax on the sale of the following articles of fishing equipment (including in each case parts or accessories of such articles sold on or in connection therewith or with the sale thereof) by the manufacturer, producer, or importer thereof:

- (1) Fishing rods;
- (2) Fishing creels;
- (3) Fishing reels; and
- (4) Artificial lures, baits, and flies.

The tax applies only to those items of fishing equipment specified in section 4161(a) and this paragraph. Therefore, other items of fishing equipment, such as fishing nets, lines, hooks, sinkers, gaffs, etc., are not subject to the tax. Furthermore, the tax applies only to those specified articles of fishing equipment that are designed or constructed for use in the sport of fishing. Accordingly, the tax does not apply to those articles which, although nominally articles that are specified in section 4161(a), are in the nature of toys or novelties that merely simulate articles of a type referred to in section 4161(a),

and are not designed or constructed for practical use in the sport of fishing.

(b) *Rate of tax.* Tax is imposed on the sale of the articles enumerated in section 4161(a) and paragraph (a) of this section at the rate of 10 percent of the price for which such articles are sold. For the definition of the term "price" see section 4216 and the regulations thereunder.

(c) *Liability for tax.* The tax imposed by section 4161(a) is payable by the manufacturer, producer, or importer making the sale. For determining who is the manufacturer, producer, or importer, see § 48.0-2(a)(4).

§ 48.4161(a)-2 Meaning of terms.

(a) *Fishing rods.* The term "fishing rods" includes all articles, however, designated, that are designed or constructed for use in conjunction with a fishing reel for casting a line and hook in the sport of fishing. The term does not include any article that is neither designed for use in casting, nor suitable for such use. A so-called fishing rod "blank" is not considered to be a "fishing rod" unless the blank contains an affixed handle and reel seat, or is sold in the form of a kit that contains a rod blank, a handle, and a reel seat.

(b) *Fishing creels.* The term "fishing creels" includes all portable containers, of whatever material made, that are designed for storing and carrying fish from the time they are caught until such time as they are removed from the container for consumption or preservation. The term does not include any article primarily designed for use in the commercial fishing industry, or an article such as a collapsible wire basket designed to be hung over the side of a boat to keep fish captive and alive in the water.

(c) *Fishing reels.* The term "fishing reels" includes all mechanical and electrical devices that contain a spool for dispensing and recovering fishing line, and are designed for use with fishing rods in casting and in reeling in hooked fish in the sport of fishing. The term also includes reels designed for use with bows, in the sport of bowfishing.

§ 48.4161(b)-1

(d) *Artificial lures, baits, and flies.* The term “artificial lures, baits, and flies” includes all artifacts, of whatever materials made, that simulate an article considered edible by fish and are designed to be attached to a line or hook to attract fish so that they may be captured. Thus, the term includes such artifacts as imitation flies, blades, spoons, and spinners, and edible materials that have been processed so as to resemble a different edible article considered more attractive to fish, such as bread crumbs treated so as to simulate salmon eggs, and pork rind cut and dyed to resemble frogs, eels, or tadpoles.

§ 48.4161(a)-3 Parts and accessories.

(a) *In general.* The tax attaches with respect to parts and accessories for articles specified in section 4161(a) and § 48.4161(a)-1 that are sold on or in connection with such articles, or with the sale thereof, at the same rate applicable to the sale of the basic articles. The tax attaches in such cases whether or not charges for the parts or accessories are billed separately. To be considered a part or accessory for an article specified in section 4161(a), an item must be either essential to the operation of the specified article, or be designed to directly improve the performance of the specified article, or to improve its appearance. For example, a carrying case for a fishing rod is not considered to be a part or accessory for a fishing rod, despite the fact that it is designed for use with the rod, because it is neither essential to the use of the rod, nor does it in any way improve its performance or appearance. A sale of a part or accessory which would otherwise be considered a sale “on or in connection with” the sale of an article taxable under section 4161(a), is not subject to tax if the part or accessory is sold as a replacement for an identical part or accessory being sold with the taxable article.

(b) *Essential equipment.* If taxable articles are sold by the manufacturer, producer, or importer thereof, without parts or accessories that are essential for their operation, or are designed di-

rectly to improve the performance or appearance of the articles, the separate sale of the parts accessories to the same vendee will be considered, in the absence of evidence to the contrary, to have been made in connection with the sale of the basic article, even though the parts or accessories are shipped separately at the same time or on a different date.

(1) Any bow that has a draw weight of 10 pounds or more;

(2) Any arrow that measures 18 inches overall or more in length;

(3) Any part or accessory (other than a fishing reel) suitable for inclusion in or attachment to a bow or arrow described in subparagraph (1) or (2) of this paragraph; and

(4) Any quiver suitable for use with arrows described in subparagraph (2) of this paragraph.
