FINAL DESIGNATION OF DEATH FORM

VERSION B / 9-1-1986

RAND ID:

FORM: S F D

VERSION: B

VISIT:

INSTRUCTIONS:

This form should be completed when all clinical information has been collected following a randomized participant's death to determine the cause of death as cardiovascular or noncardiovascular. The visit number entered should be the last visit attended by the participant. Print clearly when entering a response in the appropriate boxes. For multiple choice questions, circle the one appropriate letter or number corresponding to the response chosen. Specific instructions for various questions are enclosed in boxes directly below the question. See the SOLVD General Instructions for Completing Forms for details.
