Johnson            Looking and again I digress just a little further, but one of the things we did want to cover was the Viet Nam War. Were you in the command center during the Tonkin Gulf crisis?

McManis            The Tonkin Gulf was when?

Non - Responsive

Johnson            '64.

McManis            Yeah. I was trying to remember; I think I was probably just out of the command center. I was someplace related, but I can't quite remember where. So I really can't add a lot, I will say again that in the paper that I'm giving you, the one that McCafferty wrote, I think he addressed the Tonkin Gulf in there, so that may give you some insights.
