KEY QUESTIONS

1. What key individuals were involved in planning the 34-A and DE SOTO programs? What provisions were there for coordination of specific covert operations and intelligence collection missions, if any?
2. What was the role of NSA in the DE SOTO patrols? Was the special communications contingent which reported aboard the USS Mardox on 30 July 1964 a "department" (completely under jurisdiction of Cmdr. Herrick) or a "detachment" (with separate reporting channels to the Naval Security Group and/or NSA)?
3. How did Operation SLINGBACK affect development of OPLAN 34-A? What form did CIA participation in MAC/SOG take? Was MAC/SOG informed of the schedule and patrol routes of DE SOTO patrols?
4. What were coordination procedures between CIA and military personnel in the execution of 34-A actions? Who were the action officers in Saigon and Da Nang for the 34-A operations of 30 July 1964 (attacks on Hon Nieu and Hon Me Islands) and 3 August 1964 (bombardment of Rion River estuary and Vinh Son radar installation)?

The Honorable James R. Schlesinger  
Secretary of Defense  
32080  
The Pentagon  
Washington, D.C. 20301

Dear Secretary Schlesinger:

The Select Committee is investigating the relation of U.S. covert operations and intelligence collection to the Gulf of Tonkin incidents of August 1964. We are particularly interested in the planning and coordination of "34-A" operations and DE 3030 patrols, and the general command and control procedures for Southeast Asia covert operations.

Attached is a more detailed description of the Committee's questions and a document request. Your assistance in this matter is very much appreciated.

Sincerely,  
  
Frank Church
