Dear Federal Reserve Board:

Please stop banks for owning our money. Sticking us with penalties for using our money. Overdrafting charges are but a small part of this consumer rights violation. We are forced to use banks for everything. We have no option but to use bank/bank cards for personal economy business.

It's time to stop this madness. Give the rights back to the people. Big business steals and rapes our finances.

How can we stop these thieves?

Sincerely,

Susan McTighe
