Dear Email comments,

It's not enough that the money the banks begged for is being used to buy limos and other variously ridiculous and felon like articles most of us could never afford or that this near trillion dollar handout was issued by Bush and blessed by Congress. On top of it we are being held up by having to pay interest on loans from these thieves that we are paying to bail out on top of that they want to continue charging ever increasing fees. If we use another bank to get cash or make transactions which is what all banks do and are interconnected by computers than we are being flamed by these same said banks three times over and all they have to do is cry poor and everyone in Congress and the Senate rushes to give them whatever they want. Not only do I find this suspect but I find it as the actions of thugs and old time money lenders.

We want what is our right and we want it before the damn banks and those that vote to give them our money.

Please allow me the chance to opt-in to overdraft services. This is the only way that I will truly feel protected.

Sincerely,

Mr. Stanley Baker
