NBC reported today you were taking comments regarding banking fees. i'm not sure if this is the right place for the comment but will you please forward it if is not. last year i incurred an overdraft on my checking account with 5/3 bank-west michigan. i have overdraft protection so the check was honored. i was then charged a fee(i believe it was \$35.00) to transfer MY money from MY savings account to my checking account. i had never had an over draft before and i believe the fee was excessive. thank you
