Comments:

Bank of America has cost us thousands of dollars over the years. They always take the largest and then let 8 or 9 small ones bounce and collect a bundle of overdraft charges. When a person is struggling anyway trying to make ends meet they it just compounds the issues. We don't have 200 to give away in overdraft fees. I would love to see controls put on the banks. Take the many so less fees are charged.

Help!

Sincerely,  
Junie
