Comments:

Thank goodness someone has finally realized this. My bank has made so much money off of me this year. I get so upset when they pay the largest amount first leaving me with 6 or 7 small checks that they charge me \$32.00 each. Please pass this bill, Prosperity Bank is the worst about this. I know I am a big part of that billion dollars worth of overdraft fees.

This would help me so much and other people like me that live pay check to paycheck.

I would be nice if the banks would have to reimburse us as well!! That would be awesome.
