Dear Federal Reserve Board:

Six months ago I was charged overdraft fees of \$175 in one day. They put the largest check through first and bounced the other five. I was charged \$35 per check and they refused to remove any of the charges. Four of the checks were for less than \$35!! This was Wachovia/Wells Fargo, they said it is their policy to put the largest check withdrawal of the day through first no matter what order they were cashed it.

Sincerely,

Tonya
