Comments:

Bank of America charged my 22 year old daughter \$245.00 in overdraft fees for her account being overdrawn by \$12.74. We offered to pay the \$12.74 amount, but they wouldn't accept it. Instead they've chosen to put her account in collections for \$311.86. This is outrageous. The fees banks are allowed to charge should be illegal and is basically loan sharking.
